"Leadership Of Each Individual Is Needed By Canada"

C.P.R. President Offers A Most Thought-Provoking Speech In This City

"The real leadership that we need is not that of outstanding national figures who make resounding speeches and sweep the country. It is the leadership of ordinary men and women in their own small spheres. This was but one of many timely statements emphasized by Sir Edward Beatty, K.B.E., K.C., L.L.D., Chairman and President of the Canadian Pacific Railway, when he addressed an audience of over 200 people in the Scout Hall here on Thursday of last week.

Speaking before this large luncheon gathering, arranged under the auspices of the Canadian Club and Women's Canadian Club of this city, and attended by members of other clubs and organizations here, as well as representative delegations from practically all main centres in the Okanagan Valley, Sir Edward offered a thought-provoking message.

"You, as an individual, have your definite responsibility. You have your part to play, yes, even in the task of giving leadership in the questions of public concern," Sir Edward declared.

—Sir Edward Beatty Welcomed Here

SIR EDWARD BEATTY

TELEPHONE AND HYDRO REVENUES SHOW INCREASES

Inland Ice & Cold Storage's Income—Down, But Prospects Brighter

Increases in gross revenues of both the West Canadian Hydro Electric Corp. Ltd., and of the Canadian Western Telephone Co. Ltd., are shown in the sixth annual report and financial statement of the parent organization, the Canadian Public Service Corp. Ltd., for the year ended June 30 last.

Reports have now been mailed to shareholders.

The Inland Ice & Cold Storage Co. Ltd., which is also controlled by the Canadian Public Service Corp., experienced yet another decline in revenues, however, which cut considerably into the combined revenues of the three organizations.

Gross revenues for 1937 amounted to \$407,206, an increase of \$5,068 over the preceding year. The telephone revenues were up almost \$4,000, being \$199,291; the hydro's revenues increased \$8,697, from \$171,525 to \$180,222; but the ice and cold storage showed a decrease of \$7,527. Totals for this last-named organization were \$27,693 in 1936 and \$35,230 for the preceding twelve months.

"The increase in electric revenues is particularly gratifying in view of the fact that the 1936 figures included revenue of \$6,765 derived from sales to the West Kootenai Power Co. Ltd., since the annual report issued under the signature of Brigadier-General J. A. Clark, K. C.

CITY'S AIRPORT IS LICENSED, DECLARES ALDERMAN A. C. WILDE

City Clerk J. W. Wright was instructed at the City Council session on Monday to send a letter to the Junior Board of Trade informing that body that Vernon's airport is fully licensed as a customs field. This can be ascertained correctly through applying to the customs collector here, B. DeWiele, who has official documents.

This matter was brought to the Council's attention by Alderman A. C. Wilde. Last week's issue of The Vernon News, in a report of a Junior Board meeting, had stated that C. Carter-Guest, of the department of transport, had written to Alderman Wilde, who is a licensed field. This trouble could be saved, Alderman Wilde said, by merely applying to Mr. DeWiele for the information.

\$17,000 Spent On Arena Work

Of the approximate \$17,000 that has been spent so far on the arena, over one-third, or \$6,049, has been paid for labor, all of which has gone into the construction of the arena.

(Continued on Page 11, Col. 5)

JACK BALDWIN HEADS STUDENTS' COUNCIL

During the past week, pupils at the Vernon High School have held elections for the student government for the ensuing term. At recess period on Monday last, the Student Council representatives nominated candidates for president, and at noon on the same day, the students chose Jack Baldwin for this post. The students' council executive was appointed on Tuesday, and members are: vice-president, Arthur "Dumie" Cochrane; treasurer, David Howie; secretary, Miss Mildred Lockwood.

The school publications' board, which will be in charge of the school paper and perhaps of an annual, has been elected. The members are: Stuart Fleming, Ken Challen, Robert Stockton.

Elections will be held when classes are moved to the new school building.

Macs To Roll At Midnight

First Flight Will Not Be As Strong As In Many Past Seasons—Export Sizes Are More Plentiful Than At First Expected

Midnight tonight, Thursday, will mark the first release of this year's McIntosh apples from the Okanagan to domestic markets.

The consensus of reports from shippers indicates that the first movement will not be as large as in many past seasons, but the various houses have been loading strongly since Monday to storage tracks, and there will be plenty of fruit under way when the dead-line is reached. Hardly anyone will venture an estimate as to the probable volume of the first flight.

After a week's pack-out, a larger percentage of export sizes is showing up. A month ago it was predicted that the export stocks available would not be so plentiful. It was apparent that sizes would be large. Then came hot dry weather and the fruit matured more rapidly, and at sizes that are attractive to the overseas buyers. This is a fact that is gratifying to the shippers, for they have been enjoying a good export play, and the development will slacken pressure on the domestic market and have a stabilizing effect.

As a result of recent rain and cooler weather, a much higher color is now noted on the Macs.

For more than a week now this variety has been leaving the Kamloops area for the domestic market, and Grand Forks is also rumored as having moved out ahead of the general parade.

The wealthy deal meanwhile continues, with some shippers not yet sold up to their cartels release appropriation. On Wednesday evening a further 15 percent release went into effect on Hyslop crates.

Mac's have been enjoying a strong sale—Flemish have had the best deal in years, and are now getting low in supply. A mixture of stuff is now going out with Anjou in good demand.

Apples and peaches will be over this week. The dump duty will be off peaches effective the 25th.

COMMITTEE TO AID PRAIRIES IS ORGANIZED

Generous Response To Subscription List Is Already Received

With a number of generous responses already received, the Vernon branch of the Okanagan prairie relief committee this week has practically completed plans for its drive to obtain \$1,000, the figure needed to pay the picking and hauling charges for the valley fruit it is proposed to send to the drought areas.

Subscriptions may be left with any member of the committee, with the local banks, The Vernon News, or with a number of business firms in this city. Contributions received up to Wednesday afternoon are listed below, with the amounts. All names of all contributors will be published weekly in this newspaper.

More than a carload of Wealthy apples, approximately 1,200 boxes that would otherwise have been left on the trees to rot, have already been dispatched to Saskatchewan, where the need is the most vital. This fruit was all picked from Stecher, Freeman's and Jack Brett's orchards, and was the first carload to be sent from the general Vernon district.

Geoffrey Whitehead has once again been named the general chairman of the local relief committee. The secretary-treasurer is Capt. H. P. Coombes and members of the committee to organize the drive are the Rev. H. C. B. Gibson, chairman,

RULES FOR NETTING KOKANEES

A special order-in-council regarding fishing for kokanees has been passed and will be strictly enforced. It is announced by G. N. Cartrell, of Summerland, fisheries inspector for this district.

The regulations follow:

"No one shall fish for, catch, or kill little red fish (Kokanees) in any creek or stream up which these fish ascend to spawn. A dip net licence for the capture of little red fish, or so-called Kokanees, shall authorize the use of a dip net, the ring or frame of which shall measure not more than twenty inches in diameter, or across the longest side, when in use. The fee for such licence shall be one dollar, and it may be obtained from the Provincial Commissioner of Fisheries at Victoria."

The Fisheries Department intends to enforce this regulation in its strictest sense, according to information received here.

SALEMAN ARM BEATS VERNON

Playing at Salmon Arm on Wednesday night, the Vernon "all star" lacrosse team was defeated 9-5. A return contest will be in Vernon on Sunday afternoon.

Roosevelts To Visit British Columbia

President Franklin D. Roosevelt, chief executive of the world's most powerful republic, will pay a short visit to this province's beautiful capital, Victoria, on October 1, it is announced. The president, pictured above with his son and secretary, James Roosevelt, will be accompanied by a party of fifty, and will arrive from Seattle. This will be the first visit of a U.S. president to B.C. in 14 years, since President Harding's trip up the coast just before his death.

Council To Engage Engineer To Advise On Rates Question

Move "Vitality Necessary" In Mayor's Opinion—Members Agree

Vernon's City Council continuing its negotiations for reduced power rates, has decided to engage the services of a consulting engineer, as the latest development in discussions with the West Canadian Hydro Electric Corp. Ltd.

Meeting with Stanley Barnes, comptroller of the Hydro, the Council on Monday evening gave further attention to the proposed schedule of new rates submitted recently. As at the last session, no decision was reached.

The motion to engage an engineer was moved by Alderman Everard Clarke, chairman of the electric light committee, and was seconded by Alderman A. E. Berry.

Three Aldermen, Clarke, Berry, and C. Wilde, and Mayor E. W. Prowse, spoke in favor of engaging such an engineer. Though the other Aldermen did not comment, the motion was passed unanimously.

"I think it is vitally necessary to get such a report, both for the Council's and for the citizens' satisfaction," Mayor Prowse declared.

"I agree, Your Worship," Alderman Wilde said. "The way I look at the question is this: I don't know anything about electric rates, and it's a question of satisfying the public. There has been from time to time a certain amount of dissatisfaction with rates on the part of certain members of the public. If we go ahead and complete this agreement, there will still be people that will kick, while if we engage an engineer and adopt his findings there can be no kick."

At the conclusion of discussion with Mr. Barnes, the Council tendered him a vote of thanks for his work in obtaining data. The comptroller again repeated his assurance that he is quite prepared to furnish the Council with details the Council wishes to have.

During the public session of the Council, there were no names mentioned regarding choice of a consulting engineer. The matter was discussed in committee, but no announcement has been forthcoming.

SHARP DROP IN TEMPERATURES

The thermometer dropped to as low as 37 degrees here last night, Wednesday, just five degrees above freezing. The first sharp indication of the approaching fall, it brought traces of frost in some pockets of land.

A quick survey this morning reveals that there has been, however, practically no damage to the most sensitive crop, the tomatoes. This is the report of government observers and of Bulman Limited.

"The tomatoes are still coming in good volume," reports Mr. Bulman, "and they are of better than usual quality." The firm is past its peak, and another week should see it through.

Growers, he adds, are looking towards more severe frost this evening, however.

MRS. ALBERT BINGLEY IS MOURNED BY MANY

Widespread Regret At News Of Passing Of Well Known Woman

There has been widespread regret throughout this city and district at the news of the death of Mrs. Mary Elizabeth Bingley, the wife of Albert Bingley, of the Coldstream.

Mrs. Bingley passed away in the Vernon Jubilee Hospital on Tuesday afternoon, following lengthy residence at Coldstream Ranch, and prior to that, for some time in this city.

Born in the Presbyterian Manse, a grand-daughter of the Rev. G. R. Vans, at St. George, N.B., she spent her early years in Bridgewater, N.S., and Sydney, Cape Breton, coming to British Columbia in 1910, she graduated from King Edward High School in Vancouver, and subsequently from Normal School. She taught at Mara, but later completed a business course, and finally became business secretary to James Wallace in this city. In 1920 she married Mr. Bingley, and since that time had resided at Coldstream Ranch where she became a most popular figure, with a wide circle of friends.

Surviving her are one son, George, and her husband, Albert Bingley, the accountant at the Coldstream Ranch, with whom he has been associated since 1918.

The funeral is to be held from All Saints' Church, in this city, on Friday afternoon.

When Is A Farm Laborer A Farm Laborer?

When is a farm laborer a farm laborer and when is he a packing house employee?

This is a question the settlement of which may have wide repercussions. It has been discussed for some time under a representative of the Industrial Relations Board, Mr. Dymally, and W. C. Ricardo, us-paragon grower.

Apparently the Board has decided that when a man or a woman, sorting asparagus, is in a shed on the Ricardo property, that individual is a packing house employee.

Yet day after day white men and women and Orientals working for other white men and Orientals, doing the same type of work, for themselves or each other, may be under a canvas or over a table.

FARM LABOR (Continued on Page 6, Col. 6)

Armstrong Fair Is "Over The Top" In Attendance: Support Is Widespread

A Multitude Of Exhibits And Excellent Entertainment Attract Thousands

ARMSTRONG, B.C., Sept. 20.—The multitude of exhibits and excellent entertainment offered at the Interior Provincial Exhibition here last week attracted thousands who, on Wednesday and Thursday, smashed all previous attendance records. Complete figures have not yet been released but there has been no hesitancy, even on the part of the casual observer, in making this confident assertion.

Keeping pace with the development of the Interior, the fair this year won wide support and warm comment.

Particularly significant was the support readily in evidence from all parts of the Interior. Each district sent in some splendid exhibits, and prize money was well distributed.

BIG BEND ROAD MAY BE READY BY NEXT YEAR

Revelstoke Hails Development—Large Caravan Heavily Welcomed

Buoyed up by what they described as the best news they have received in several years, members of the Revelstoke Board of Trade on Sunday gave an enthusiastic reception to a motor caravan organized by the Okanagan-Cariboo Trail Association, which visited that city.

This "best news" was what had been conveyed just a short time previously by the Hon. T. A. Crerar, Minister of Mines and Resources, who, in visiting Revelstoke, had announced that the Big Bend Highway would likely be completed next year, according to the present intention and desires of the Dominion government.

Small wonder that everyone in Revelstoke seemed filled with thrilling anticipation. One of the finest scenic routes in Canada, the Big Bend Highway when completed will afford a direct outlet from B.C. to the prairies, and herald the development of a vastly larger tourist trade.

The Hon. Mr. Crerar's cheering announcement, made at Revelstoke in the course of a recent trans-Canada trip, has given that main line city a new lease on life.

What is more, it has galvanized into activity other groups who are looking forward to catering to what will undoubtedly be a tremendous stream of tourist traffic in the near future. The Okanagan-Cariboo Trail Association is one of these groups.

At an excellent banquet arranged in the King Edward Hotel last Sunday evening, representatives of that group, meeting with civic and Board of Trade figures, emphasized the attractions they can promise the motorists who will eventually come over the Big Bend route from the east.

"Come down through the Okanagan," was the general refrain. One

DUMP DUTIES ARE OUTLINED BY OFFICIAL

Commissioner Scully Meets Fruit Interests At Pen-tiction Gathering

Commissioner of Customs H. D. Scully, Ottawa, who is attached to the Department of National Revenue, which fixes dump duty rates and periods and values for "duty purposes, conferred with representatives of the tree fruit industry in Penticton last Monday and was given a clear-cut picture of the losses and embarrassment that were caused by injudicious orders relating to application of dump duties.

Commissioner Scully's reaction, summed up after he had been given comprehensive and reliable information regarding production and marketing of B. C. tree fruits, was that the growers might rest assured that every precaution would be taken by the Department to secure the exact facts before a duty ruling was made.

Mr. Scully admitted quite frankly that in certain instances, information on which orders had been based, was not reliable although it seemed so at the time. When an emergency arose, it was necessary, in behalf of all those interested, the growers, the shippers, the jobbers, the retailers, the consumers and the department, that prompt action be taken.

He welcomed the opportunity of meeting the growers' representatives informally for he felt that such conference would bring results which guide the Minister of National Revenue, Hon. J. L. Tilley, since the men actually engaged in the tree fruit industry could put the department in the way of getting the facts which would guide the best thing to do.

"The problem is knowing when we have the whole story," Mr. Scully said. "If occasionally we make mistakes, these are honest mistakes. On the whole we have developed a sound, stable policy for fruits and vegetables with the co-operation of Mr. Burrows, secretary of the Canadian Horticultural Council."

Mr. Scully expressed regret that Hon. Mr. Tilley was prevented at the last minute from coming to British Columbia. He had planned to make the trip and to check the

COUNCIL TO PROVIDE PRIZES FOR ESSAYS BY SCHOOL STUDENTS

"Fire Prevention Week" will be observed in Vernon and throughout the Dominion from October 3 to 9, Alderman A. C. Wilde reminded the City Council on Monday evening. After discussion the Council agreed to provide money for prizes for essays in connection with this work among the lower grade school children.

It was also decided that arrangements should be made with the School Board to have Chief Ben Dickinson address students on "Fire Prevention Week."

During the past twelve months, there has not been a single false alarm turned in in this city, Alderman Wilde said. He intimated that one cause for this record was having the children take an increased interest in fire prevention, which made them less likely to play with alarm boxes.

LOCAL FIRM CAPTURES FRUIT AWARD AT FAIR

The Browne-Lander Ltd. fruit shipping firm in this city was successful in winning the "packing box" prize section at the Armstrong fair last week, for McIntosh. The competing box was selected from the ordinary commercial pack on the floor of the house by an authorized representative of the fair, and took chief honors. It was checked, reports Mr. Browne, by Mrs. Pasmore, The Okanagan Packing, Kelowna, headed the list in the Wealthy section.

WON CAR—FORGOT HE HAD TICKET

Gordon Finch, of Kelowna, who is now attending University of British Columbia, Vancouver, was the winner of the sedan car raffled in connection with the exhibition at Armstrong last week.

The drawing was made about midnight Thursday, at the dance, at which 800 attended. Mr. Finch was notified of his winning by long distance telephone.

At first he seemed puzzled and flatly declared that he didn't have a ticket on the raffie, but a hasty examination of his pockets disclosed that he had at least half a dozen, one of which was the winner.

ACCIDENT AT RODEO

ARMSTRONG, B.C., Sept. 20.—Patricia Robillard, Chase, winner in the steer riding contests at the Kamloops rodeo, was taken to the Armstrong Hospital suffering from slight concussion and cuts in the head received in the only accident to mar the rodeo.

CITY WILL NOT RENT JERRY EATIN STORE

An offer from the B.C. Fruit Shippers Ltd., to rent the Jerry Eatin premises on Barnard Avenue for storage of onions was refused by the City Council on Monday evening.

Several of the Aldermen felt that it would cost more to clean up the building than would be received from any rental. Alderman A. C. Wilde declared that if the offer was accepted the Council should notify the B.C. Fruit Shippers Ltd. that the city would not rent the store.

Fred R. Smith, of Tacoma, district governor of Rotary, will pay an official visit to the Okanagan Valley this coming week.

LESLE BURROWS MAKES QUICK VALLEY TOUR

Leslie F. Burrows, of Ottawa, secretary of the Canadian Horticultural Council, made his quickest tour to date across Canada last week end, in order to be present at the conferences in the Okanagan Valley between representatives of the tree fruit growers and H. D. Scully, Ottawa, commissioner of customs.

Mr. Burrows flew from Montreal to New York and from that city to Vancouver, the journey occupying little more than 24 hours. Mr. Burrows was in Penticton on Monday, Oliver on Tuesday and at Vernon on Wednesday and left last evening, Wednesday, for Victoria and Kelowna, where he will meet growers' and shippers' representatives.

CITY WILL NOT RENT JERRY EATIN STORE

An offer from the B.C. Fruit Shippers Ltd., to rent the Jerry Eatin premises on Barnard Avenue for storage of onions was refused by the City Council on Monday evening.

Several of the Aldermen felt that it would cost more to clean up the building than would be received from any rental. Alderman A. C. Wilde declared that if the offer was accepted the Council should notify the B.C. Fruit Shippers Ltd. that the city would not rent the store.

MAN CHARGED AFTER FATAL AUTO CRASH

Funeral Services For "Buster"
Hall Held in
Grindrod

George Barnes, of Grindrod, has been charged by Provincial Police with manslaughter following the death of John Henry "Buster" Hall, who was killed in an auto accident at Spring Bend, north of Enderby, on Wednesday evening, September 15.

Barnes, it is alleged, was the driver of the auto that plunged down a bank from the road while travelling from Grindrod to Enderby. Hall, one of six men in the vehicle, suffered terrible head injuries, succumbing immediately.

Fritz Wolfe, another passenger, is still lying in the Enderby hospital. Alex Kohut, the only other man injured, has been discharged from the institution.

An inquest into the accident, under coroner Percy Ruth, of Salmon Arm, will be held in Enderby this afternoon, Thursday.

E. M. Lader, of Salmon Arm, is acting as counsel for Barnes.

Funeral services for "Buster" Hall were held in Grindrod on Saturday afternoon and were conducted by the Bible Students. Interment followed in the Enderby cemetery.

Mr. Hall, who was aged 24, was highly popular in the Grindrod community, and will be missed by numbers of friends. He was a member of the baseball and badminton teams, and was a star player.

ENDERBY CHURCH W. A. HOLDS AUTUMN SALE

Canadian Legion Furnishes
New Room in General
Hospital

ENDERBY, B.C., Sept. 20.—A very successful fall sale of home cooking was held by the ladies of the St. George's Church W. A. on Saturday afternoon, in the Fish Hall. The proceeds were \$34 and the tea tables took in just over \$7.

The furniture, which was ordered by the Canadian Legion to furnish one of the rooms in the new wing at the Enderby General Hospital, arrived this week and will be arranged in the hospital at once.

The ladies of the St. George's Church W. A. held their first meeting to do the needle work for the bazaar on Wednesday afternoon at the home of Miss Bowes. These meetings will be held bi-weekly at the homes of the ladies and each member will do her piece of needle work, which will later be sold at the bazaar.

Saturday saw one of the worst storms at Mabel Lake that has been had in years. No severe damage was done, but many of the campers who have been at Mabel Lake for a number of years said they have never seen such a bad storm on the lake before.

Mrs. W. Livingstone and son, Victor, spent the week end at Mabel Lake.

Mr. and Mrs. L. J. Proctor are making preparations for their sale of camp furniture to be held early next month and they plan to leave for the Coast about October 8.

Mr. and Mrs. T. W. Robinson arrived from Britannia Beach on Sunday morning to visit with Mr. Robinson's mother, Mrs. C. E. Robinson, and his sister, Miss B. Robinson, until Monday, when they will return to their home.

Preparations are being made by the St. George's Anglican Church for their harvest dinner, which will be held in the Parish Hall again this year.

Miss Eileen Morton, who had been writing her nurse's examination in the Royal Inland Hospital at Kamloops, returned home on Saturday.

Several ladies of the Woman's Missionary Society met in the basement of the United Church a short time ago to work on a brick block quilt. This quilt is to be sent to the Burns Lake Missionary Hospital.

Mr. and Mrs. McDermid have bought the Glen place on the bank of the Grindrod river. They have demolished the old house and are using the lumber to build a new one across the road down near the river. John Johnson has been doing the carpentry work and fully modern conveniences and electric lights are being installed.

Miss Alice Stevenson motored from Vancouver to spend the week end with her father, H. Stevenson. She returned to her home on Monday.

Mrs. E. E. Harvey, post mistress of the Enderby post office, accompanied by her son, Jack, returned home on Friday after a two weeks' holiday spent visiting with her son Oliver, of Campbell River, and her brother-in-law, Mr. and Mrs. E. Harrop, of Victoria.

Mr. and Mrs. Fraser arrived from Ashcroft this week to visit with their daughter, Mrs. D. Jones. Mr. Fraser will return to Ashcroft this week and Mrs. Fraser will remain in Enderby for some time.

Alex Kohut, who has been receiving medical care in the Enderby General Hospital since his accident on the Spring Bend highway on Wednesday, was able to leave for his home at Grindrod this week. Fritz Wolfe, who was also in the car at the time of the accident, is making a favorable recovery.

Mrs. W. Ward, of Lumby, has been visiting with her sisters, Mrs. George Jones, Mrs. Ralph Stevenson and Mrs. P. Farmer, during the past week, returning to her home on Sunday.

C. Piper has been busy during the past week painting the outside of the stores on the Bell Block on Main Street. The front of S. Speers' dry goods store has been finished in green and white, and Mr. Piper is continuing this week with the painting of the rest of the buildings.

Mr. and Mrs. A. Hurst motored from Revelstoke on Friday and spent the week end at Proctor's tourist camp and visiting with friends at Armstrong. They were accompanied by Mrs. Earle Donaldson and son, Bobby, who were visiting with Mrs. Donaldson's mother, Mrs. M. Peel.

Dr. and Mrs. E. Haugen motored to Salmon Arm on Monday evening to meet Mrs. Haugen's sisters, the Misses Thora and Fanny Magnusson, who came by train from Winnipeg. They will remain with their sister for three weeks and are planning a trip to Vancouver before returning to their home in the east.

P. Farmer and M. Reid, of Osoyoos, left on Friday for Osoyoos, where they are attending to the B. J. Curney pole interests.

president of the Canadian Public Service Corp.

Other members of the Board of directors are R. C. Buchanan, Stanley Burke, J. E. Elliott, B. H. Gunning, Ross Peers, L. P. Smith. The secretary is H. C. Oliver, of this city.

MANAGEMENT PRAISED

"Much credit is due to the initiative of the management in new connection and an educational campaign among the residents," the report continues.

"The telephone increase in rentals is in proportion to the increase in the number of stations from 5,345 in June, 1936, to 5,507 in June, 1937. There was a slight decrease in toll revenue due to the short fruit crop and subsequent lack of selling pressure in that industry. The Ice & Cold Storage branch again showed a serious decline in revenue. This is accounted for by the short fruit crop and a consequent decline in storage and the loss of requirements of the railway companies on fruit shipments. During the past year new business connection have been made and already more storage space has been sold for the current year than was sold throughout the past year. The result of these factors is an increase in ice requirements and will react favorably on the ice business of the company.

"Your board has leased a portion of the ice company's real estate to E. McDonald & Sons Limited, a packing house. It is hoped that this will prove a useful connection for the cold storage plant. Your board has also leased to the city of Vernon a portion of the company's property adjacent to the gold storage plant. The city has erected a Sports Arena. It is expected that a by-law will be submitted to the ratepayers within a reasonable period for authority to equip same with an artificial ice plant. This should be beneficial to both the ice and electric companies," General Clark's report states.

OFFICES COMBINED

"Combining the offices of the Canadian Western Telephone Co. Ltd., and West Canadian Hydro Electric Corp. Ltd. has had very satisfactory results. This is reflected in the increased revenues and decreases in general and administrative expenses of \$1,119, and in operating expenses of \$2,463.

"The funds provided by the year's operations have been used to make extensions and other capital expenditures totalling \$43,643, to retire \$22,000-par-value-of-bonds-and-debentures (as required by trust deeds) at a cost of \$21,750, and to improve the working capital position of the company by \$30,660.

Bank loans as at June 30, 1937, amounted to \$10,000 as compared with \$34,000 on June 30, 1936, and \$59,000 on June 30, 1935. Working capital position has improved from a deficit as at June 30, 1935, of \$26,471 to a surplus at June 30, 1936, of \$7,825, and \$38,485 at June 30, 1937, or a net improvement of \$64,957 in the two year period. No provision has yet been made for a sinking fund to retire the first mortgage bonds amounting to \$1,000,000 of the West Canadian Hydro Electric Corp.

"The need of stand-by power for the West Canadian Hydro Electric Corp. has been a matter of serious concern for your directors. During the past year arrangements have been completed with the West Kootenay Power Co. Ltd. for interchange of power, the purpose of which is to protect both companies against breakdowns. Your directors look upon this connection as a very valuable asset," the report states.

"Your directors have approved a scheme which provides for the voluntary winding up of the Canadian Western Telephone Co. Ltd. The Okanagan Telephone Company will take over the assets and bonded and other indebtedness of the Canadian Western Telephone Co., and become the principal operating telephone unit, with the Summerland Telephone Co. Ltd., and South Telphones Ltd., as subsidiaries.

SIMPLIFY ORGANIZATION

"The object is to simplify the organization and to save a considerable sum in operating costs. This scheme requires the approval of the bond-holders of Canadian Western Telephone Co., and an amendment to the charter of the Okanagan Telephone Co. Steps have been taken with the approval of the court to secure the consent of the bond-holders and a petition has been filed with the Clerk of the Legislative Assembly requesting the necessary amendments to the charter of the Okanagan Telephone Co."

The consolidated balance sheet as at June 30 shows assets and liabilities in balance at \$4,110,459. Fixed assets are given as amount-

'BATMAN'S' PLANE RELEASED BY POLICE

Tacoma Pilot Fined \$25 And
Assessed \$100 By Can-
adian Customs

OLIVER, B.C., Sept. 20.—Grounded for two weeks following alleged infractions of air and customs regulations, Bert Eckstein, Tacoma pilot, took off here last Saturday noon for his home city.

Eckstein was found guilty of operating a plane in Canada without a proper license, for which he paid a fine of \$25 and costs. He was also assessed approximately \$100 in connection with the customs charge.

Eckstein used his plane to take Cecil McKenzie, the "batman" aloft for his batwing glide at the Oliver air show September 6, and on his return to the airport he was arrested by R.C.M.P. officers. The "batman" was arrested at the same time, and also his father, T. W. McKenzie. The charge against the "batman" was dismissed, and T. W. McKenzie was fined \$25 and costs.

Eckstein is well known in American Pacific Coast flying circles, and is manager of a flying school in Tacoma with an enrolment of 60 students.

It is understood that McKenzie the "batman" is making arrangements for another jump within ten days at Tacoma or Seattle. His stunt is based upon the principle of gliding as practised with mechanical gliders. McKenzie in his two flights, one at Vancouver in July and one at Oliver, made several important discoveries relative to gliding, and he now believes that he is making progress in the right direction.

With mechanical gliders man can remain aloft for hours and travel great distances. McKenzie has worked out the ratio of weight and wing area, and he believes that it is possible, taking off from a high altitude, to glide with his bat wings from Tacoma to Seattle. He does not, however, predict that he will work out this feat in his forthcoming stunt at the Coast city. It will be accomplished, according to McKenzie, when he has developed his wings to a greater degree of efficiency, and when he has acquired more skill in manipulation of them.

MR. AND MRS. D. MOSS VISIT IN LAVINGTON

LAVINGTON, B.C., Sept. 20.—Mr. and Mrs. David Moss arrived here on Tuesday, having motored across Canada, after a prolonged honeymoon trip to the British Isles, New York and Montreal. They left again on Friday morning for the Coast and are making their home in Vancouver.

Mr. and Mrs. Alec Reid, of Saskatchewan, came in by car last week and are the guests of Mr. and Mrs. Ned McNary. They intend to buy land here in the valley and settle with their family.

Harold Johnston left on Monday of last week for Burns Lake. He was accompanied by his mother, Mrs. Campbell Johnston.

Mr. and Mrs. Joe Thaller have returned to their home on the prairies, after several weeks' stay with friends in Lavington.

At least, half of the Lavington residents motored to Armstrong on Thursday last, for the annual exhibition, and all say it was "bigger and better."

WESTBANK WILL HAVE RECREATION CENTRE

Classes To Start In November—Enthusiasm Is
Very Keen

WESTBANK, B.C., Sept. 20.—At a meeting of the executive of the Westbank Women's Institute, at which a member of the Community Club executive was present on Monday evening, September 13, it was arranged that early in November a Recreational Centre will open in Westbank. Jack Lynes, of Kelowna, who is in charge of the work, was present, and gave information regarding the classes, and answered questions regarding attendance, etc.

Last winter Mr. Lynes and his class gave a demonstration in Westbank, and since that time enthusiasm for a centre here, has been keen. How many classes will be held each week, and other details, have still to be arranged. Mrs. E. C. Paynter, and Miss Gowen, R.N., are at work on this committee, as they have been for several months past.

The motion pictures, arranged by the Forestry Department and held in the Community Hall on Wednesday of last week, were well attended, and enjoyed by young and old. Pictures of wild life were particularly interesting; while the youngsters took great delight from the two reels of Mickey Mouse pictures.

Miss Doris Paynter left on Wednesday, September 15, for Victoria, where she will attend college during the next year. Accompanying her as far as Vancouver was Miss Clara Butt, who has come to spend a lengthy holiday with Mr. and Mrs. English, friends who frequently visit the Okanagan.

William Gellatly left last week for his home in Powell River, after a fortnight spent visiting relatives in the Okanagan.

Pat Hewlett and Matt Hicks, of Westbank, have the contract to build a dam on Bear Lake, for the purpose of making the storage of water more secure. This water will be used by the water-users of Westbank, as has been done in the past; but the new dam will replace the old beaver dam.

Grapes MAY LOOK ALIKE
but
HOW DIFFERENT IN
QUALITY!

... it's the same with BEER

The grape was, no doubt, the first fruit brought under cultivation, and the grape of history is the wine grape. Although grapes from different districts appear similar, experts know they exhibit more variation in characteristics than any other fruit. They are very sensitive to any special quality of soil, air or moisture. That is why in France, the greatest grape-producing country, the name champagne is restricted to wine produced in a comparatively small district in the vicinity of Rheims.

Fine lager beer is also a very delicate product. Every ingredient, every step in the brewing and handling has its influence on purity, flavour and general quality.

When you buy Lucky Lager you are certain of getting one of the world's finest beers brewed in the most scientific and expensive way* and aged, like vintage wines, to a rare perfection. Your first glass of sparkling Lucky will tell you the reason everyone calls it the Champagne of Beers.

Nervous Fears Take the joy out of life

Lack of nerve force brings loss of courage, loss of hope and loss of confidence. Fear of nervous breakdown, fear of losing the mind, fear that you will never be well again—these beset you by day and night. You become restless and cannot sleep. Appetite is lacking and digestion is upset. Headaches, neuralgia and neuritis may disturb your peace and comfort.

Oh, to be strong and confident again, to feel that you are master of your health. Dr. Chase's Nerve Food will certainly help you. It has proven its effectiveness in so many cases that it is not likely to fail you. It makes the blood rich and restores vigor to the nervous system, brings back strength and confidence and good health.

For New Pep and Energy use

(Continued from Page 1)

situation at first hand, being interested in tree fruits as he came from the Annapolis Valley. The Commissioner had a visit to British Columbia in mind and might possibly be able to come out later in the fall.

Mr. Scully said that he was meeting the growers' representatives with an entirely open mind and that he would report to the minister any new matters that might come up. Sitting in at the conference were Fred Lewis, who is chairman of the Tariff Committee of the B.C.F.G.A., under whose auspices the meeting was held, L. P. Burrows, secretary of the Canadian Horticultural Council, K. Loyd, president of the B.C.F.G.A., O. W. Hembling, of the B.C. Fruit Board, E. J. Chambers, L. R. Stephens, Capt. H. A. Porteous, Oliver A. C. Atkinson, Penicton, Major M. V. McGuire, secretary of the Okanagan Federated Shippers, W. S. Harris, Vernon News, R. J. McDougall and Bob Lowe, Penicton Herald, Bryson M. Whyte and W. Read, of the Fruit Inspection Branch, V. B. Robinson, and C. A. Hayden, secretary of the B.C.F.G.A.

Chairman Lewis outlined the purpose of the conference and said that the Tariff Committee of the B.C.F.G.A. was trying to work closely with the Department of National Revenue and the Department of Agriculture, in the gathering and forwarding of information relating to the necessity of a protective tariff. He appreciated the members in which the Department of National Revenue had given the necessary protective measures asked for, although, now and again, there were complications which hurt the B.C. tree fruit industry. As examples, he cited the peach situation last year and the apricot mix-up this year.

Chairman Lewis brought up the matter of the request of B.C. canners for a drawback on imported Bartlett pears for canning only.

Mr. Scully explained that it was not possible under the law as it stands to operate any regional drawbacks. The drawback items are part of the tariff, as passed by parliament and must apply all across Canada. Up to the time he left Ottawa nothing had been decided about the canners' application.

Mr. Chambers said that the situation varied from year to year. This year the canners wanted Bartlett pears but next year they might not want them.

Mr. Burrows suggested that about the only trouble of this nature the Horticultural Council ran into involved Bartlett pears and some early peaches. He said that the canning of pears had developed tremendously since 1930 when production was only 1,000 tons. Production had increased from 2,813,744 to 7,212,000. Figures were not available to show the quantity of pears imported for canning in Canada.

It was stressed during the discussion which followed that if the door was opened to Bartlett pears, canners would want similar treatment with regard to other fruits and also vegetables.

It was also stated that the production of Bartlett pears was increasing in British Columbia. Mr. Burrows said he could not see how a drawback could be granted for British Columbia alone. If they were granted for this province, Ontario's canners would be justified in demanding a like privilege. There was also the matter of the consumers of fresh fruits. They would not be satisfied if there was a drawback on fruit for canning and one for fruit for the fresh fruit market.

Messrs. Porteous, McDougall, Atkinson and Lewis reviewed the 1936 peach duty trouble. They informed the commissioner that the delay in putting on the duty, owing to misleading information evidently sent to Ottawa, had injured the market for B.C. peaches. Mr. Chambers said that if the duty had been out on one week earlier in 1936, it would have helped the situation tremendously.

This year, Mr. Scully was informed the duty was placed on plums and on raspberries before

Armstrong Exhibition

(Continued from Page 1)

a fine lot with well filled classes showing a quality that would hold its own in any competition. The B.C. Kelowna, took the lead here, showing the senior and grand champion cow and junior, senior and grand champion bull. R. G. Lockhart, Armstrong, showed the junior champion cow and reserve in several others.

AYRSHIRES LARGEST

The Ayrshires were the largest class in the show with the keenest competition in every section. J. W. Cross, Armstrong, won junior and grand championship for cows, winning the Earl of Stair silver trophy and the Caledonian Society trophy for the four best cows. L. C. Brydon, Armstrong, took the senior and grand championship for bulls, securing the Consolidated Mining and Smelting Co. silver cup. H. Naylor, Enderby, had the senior cow and junior bull champions.

The Finty herd was represented by a number of particularly fine animals which were not entered for competition, being only on exhibition.

In the Red Polls F. E. Waby, Enderby, made practically a clean sweep, getting all the championship honors and winning in all classes except that for cow calf and cow under three years, these being won by T. Ball and Son, Armstrong. The Holsteins although not a large class produced some keen competition with W. R. Barlee, Kelowna, capturing major honors with his females, and H. Worth, Lumby, doing similarly in the male classes. In a small but high class showing of Guernseys R. W. Hornby, Armstrong, secured the bulk of the honors, J. Paterson, Revelstoke, being placed reserve for junior champion bull and first for cow under three, for cow calf and bull calf.

Prominent winner in the grade class was D. Jones, Enderby, with four winners, followed by W. P. Nash, Armstrong, with two.

In the beef cattle section there was the keenest competition in the Shorthorns with P. E. French, Vernon, securing the senior, junior and grand champion rib, and junior champion in females. C. R. Green, Westwood, scored in the herd, get of sire and progeny classes and getting senior and grand champion in the females. In a fine showing of Herefords R. N. Clerke, Vernon, secured a large share of the honors, getting senior and grand champion in females, C. Turner, Westwood, having the junior and grand champion bull, and J. H. McCallan, Armstrong, the senior champion bull.

The swine barn held one of the outstanding exhibits of the fair, the showing in the various classes being of a very high standard. L. C. Brydon was a prominent winner in this section, capturing the challenge cup for champion York sow with a very nice exhibit, and he also showed the champion boar. The bacon litter competition brought out entries which were all of a very high standard. Sam McCallum took second and third places. The judge remarked that the exhibit of swine

supplies were available. Certainly B.C. producers had not been consulted as to their ability to supply the market.

Mr. Scully replied that one of the objects of his visit was to investigate such matters with a view to improving the system of gathering information on which dump duty rates were based.

As for apricots this year, the department had been informed from Vancouver that British Columbia was shipping cots to the East and the market there could not get them. Mr. Chambers replied that the Vancouver market was glutted with U.S. cots and British Columbia simply had to ship east.

Mr. Scully had been informed of this subsequent to the order going into effect and he said that things were going better now and that he did not think B.C. growers would have much complaint in future.

Chairman Lewis thanked the Commissioner warmly for attending the conference and expressed the view that important values would follow.

was of such a high quality that it would have stood out anywhere in the country.

SHEEP OF QUALITY

The sheep division, with an increase in every pleasing display, the trend in quality. The principal winners in the sheep division were Mrs. Talbot, H. E. Talbot, W. Whitting, all of Westwood; W. A. Cameron, Kelowna, and A. W. Hunter and J. Anderson, Armstrong.

The show of poultry was of the highest merit with well filled classes. In the Barred Rocks, Jessie Alexander, Westwood, was the principal winner, her first prize rooster being also adjudged the best bird in the show.

The Island Red honors went principally to G. W. Gaze, Armstrong, and notable winners in the other classes were W. B. Hilliard and R. E. Harry, Enderby; W. Brennan, Kamloops; Mrs. H. Swanwick, Salmon Arm.

In the Bantam classes, which made a very pleasing display, the principal winner was J. G. Cameron, Kamloops. The Turkey classes, although not very large, contained some very fine birds with W. Hardy, Armstrong, securing most of the awards. In geese R. E. Harry was the winner, closely followed by M. Rees, Armstrong. In a very strong showing of Pekin ducks W. P. Paterson was the principal prize taker. In a very fine class of Angora rabbits Mrs. Swanwick took the lead, Mrs. J. Phillips winning in the other rabbit class.

JUNIOR FARMERS

The junior farmer division was one of the outstanding showings at the fair and the exhibits of the calf, swine and poultry clubs were a fine testimonial to the value of the work these clubs are doing among the young farmers, and their exhibits formed a noteworthy part of the exhibition.

In the vegetable division there was the keenest competition in all classes with one single competitor securing a large number of honors, a noteworthy exception being in the celery classes where G. F. Marshall took all the firsts. The class for collection of vegetables was good, with E. E. Dyson leading with a very fine exhibit. The boys' and girls' potato club exhibits in this division drew much attention from visitors, the quality and the fine preparation shown in the exhibits being much remarked on.

In the grain and seed division, the entries, while of very high quality, were not as numerous as in the other sections. There was room for more competition. H. Johnson was principal winner in the classes for sheaves of grain and in the seed sections W. T. Hayhurst & Son took a front place. Field crops made a large increase in the entries in this section, with the classes fairly well filled, mangels being a strong and good entry. Mrs. Swanwick took a prominent place.

FRUITS EXCELLENT

In the fruit division there was a large increase in the entries in the plate classes compared with last year with particularly strong showings in Wealthy and McIntosh classes. J. C. Clarke, Keremeos; B. Poyell, and T. Bulman Estate, Kelowna, were the chief winners. A very noticeable feature in this division was the display of grapes shown by J. W. Hughes, Kelowna, and Mr. Brett, Salmon Arm. Along side these displays was one from Glenmore district showing grapes, apples, pears, plums, and peaches, all of which were of the finest quality.

The floral exhibit at the north end of the rink made an exceptionally fine showing and the judge remarked that he had never judged a better display. Prominent winners in this section were Mrs. M. A. McPherson and Mrs. M. J. A. McPherson, and Mrs. M. J. A. McPherson, and Mrs. M. J. A. McPherson.

The fancy work and household arts divisions, in the recreation hall, were the best and most numerous that have ever been seen at the fair. The fancy work classes held entries from many outside points, prominent winners being Miss E. M. Gallagher, Vancouver, and Mrs. J. A. McPherson, Enderby. In the household arts division there was very fine exhibits and keen competition in all the classes. Mrs. D. Lindsay, Mrs. J. Phillips, Mrs. J. A. Jamieson, and Mrs. J. A. McPherson were among the prominent winners.

MARA RESIDENT DIES IN JUBILEE HOSPITAL

MARA, B.C., Sept. 20.—Mara residents were greatly shocked when it became known that Mrs. Olive Butterworth had died in the Vernon Jubilee Hospital last Wednesday evening, September 15, after only an illness of less than two days. She was the wife of George Butterworth, of Dawson, Yukon, and was a resident of Mara for twenty years, a member of St. Matthew's Church, for which she had worked for many years, and also acted as organist; and she always proved herself a friend in need, always willing to help in sickness.

Mrs. Butterworth was well known in badminton and tennis circles throughout the valley. She returned from England with her youngest son on August 27, after a lengthy visit.

She leaves to mourn her loss, besides her husband, four sons, Jack, Cecil, and Roy, of Dawson, Yukon, and Leslie, at Mara.

Interment took place in Mara cemetery last Friday afternoon. The Rev. M. E. West, of Canoe, and Rev. W. B. Irwin, of Enderby, officiated.

FIRST DELICIOUS APPLES
ARE NOW BEING PICKED

OLIVER, B.C., Sept. 20.—Growers
are starting to pick Red Delicious
this week, and the ordinary variety
of Delicious will start in about ten
days. The red variety has had
sufficient color for two or three
weeks, but the fruit is just now
reaching maturity.

**ALBERT MURPHY HAS
NARROW ESCAPE WHEN
DRIVING IN STORM**

Pole Crashed Against Truck,
Narrowly Missing The
Cab And Engine
LUMBY, B.C., Sept. 20.—A severe
electric storm, passed over Lumby
on Friday evening, ending in a
heavy downpour of rain.
When the storm was at its height
Albert Murphy, while hauling poles
out of Squaw Valley, escaped what
might have proved a serious acci-
dent as a tree fell on the truck and
smashed one light and part of the
front fender, barely missing the cab.
Returning next morning for an-
other load of poles, Mr. Murphy, find-
ing the tree still standing, met with
a real accident when a pole up-
ended and he was hit in the face,
knocking out several teeth.
A chicken shoot was held on
Sunday at Hines' Corner on the
Sugar Lake road.
Miss Betty Shields left on Thurs-
day of last week to attend the con-
servatory of music at Regina.

**CANTALOUPE DEAL IS
NOW OVER FOR YEAR**

OLIVER, B.C., Sept. 20.—Tuesday
closed the season for Oliver-
Osoyoos cantaloupe growers, for
September 21, the dump duty on
cants was lifted. The local supply
has been falling off rapidly, and is
almost cleaned up.
The deal this year, as handled
by the Southern Okanagan Co-
operative Vegetable Growers Asso-
ciation, has been fairly satisfactory.
The whole crop has been disposed
of at fair prices, and the trade was
pleased with the quality of fruit.
Many cantaloupe growers, however,
many cantaloupe growers, however,
resulting in a lower return to the
grower.
As compared with last year, the
deal this year was a success. The
1936 deal, this is due chiefly to
better management of the market-
ing of this crop by the vegetable
growers' association, in their first
year of operation.

**EWING'S LANDING BOY
IS PRIZE WINNER AT
INTERIOR EXHIBITION**

EWING'S LANDING, B.C., Sept.
18.—About a score of local residents
went to Armstrong, where they at-
tended the Interior Provincial Ex-
hibition. Mrs. J. Schubert spent
two days in Armstrong over the
period of the fair, staying with her
parents, Mr. and Mrs. Cross. Her
little son, Jack, is being congrat-
ulated upon obtaining second with
his calf. Jack attends school and
makes his home with his grand-
parents, Mr. and Mrs. Cross, Arm-
strong.
Leaving on Tuesday of last week
for Prince Albert, Sask., was Miss
Queenie Calvert, who has been visit-
ing Mr. and Mrs. Leckie-Ewing for
the summer months. Miss Calvert
will drive a Sunday School van for
a few weeks visiting the neighbor-
ing settlements of Prince Albert.

Mr. and Mrs. F. E. O'Haines; Mr.
Church, the summer guest of Mr.
and Mrs. Haines; and Mr. Lawrence
left the beginning of last week by
car for the Cariboo, where they have
planned a duck hunting trip.
Mrs. Vincent Pease has returned
to Kelowna and is staying with her
parents, Mr. and Mrs. N. Day, of
that city.

**FORGER GIVEN
12 MONTHS IN
OAKALLA JAIL**

William Lane Arrested By
Police In Kelowna—
Has Lengthy Record
Pleading guilty to a charge of
uttering a forged document, Wil-
liam Lane, no fixed address, was
sentenced to one year in Oakalla
Jail by Magistrate William Morley
in police court on Saturday morning
last.

Charged with obtaining money
Lane was given a year in jail in
and goods under false pretences,
the Kelowna police court on Fri-
day morning. Sentences will run
concurrently. He was arrested in
Kelowna the previous afternoon by
provincial police Sergeant A. Mac-
donald and by Constable W. J.
Butler.

Lane passed a worthless cheque
Hotel in this city. The proprietor,
September 14 last on the National
D. J. "Dell" Robison, testified in
police court here.

A large number of worthless
cheques is alleged to have been
passed by Lane at various inter-
ior points, and he is also
wanted at the Coast on several
counts, it is understood. He was
only released from jail, after serv-
ing a two-year term, last
May or June.

This noted criminal has spent at

MAN HELD BY POLICE; WIFE LEFT STRANDED

PENTICTON, B.C., Sept. 21.—
Mrs. Thomas Walker, a bride of
but a few days, is back at her
parents' home in Enderby, and her
husband is in custody, as the result
it is alleged by police, of a too lib-
eral use of a cheque without funds
to back it up.

Mr. and Mrs. Walker came to
Penticton recently on a honeymoon
trip. Walker hired a car at a local
garage, indicating it was his inten-
tion to drive to Peachland with his
bride. As a security he presented the
garage attendant with a \$10
cheque.

Instead of proceeding to Peach-
land, he drove to Rock Creek, alone,
and was apprehended there by po-
lice. The cheque he presented is
worthless, and his wife was left
stranded in Enderby, without funds.
She was sent to Enderby, her
maiden home.

WILLIAM POWELL AND LUISE RAINIER STAR IN EXCITING DRAMA

William Powell and Luise Rainer
are co-stars in another dramatic
adventure story of international in-
trigue, in Metro-Goldwyn-Mayer's
adaptation of Baroness Orczy's novel,
"The Empress's Candlesticks,"
which comes to the Empress The-
atre on Friday and Saturday, Sep-
tember 24 and 25. George Fitzmaurice
directed. John Considine, Jr.,
produced.

This romantic novel starts in
Vienna after the kidnapping by
socialists of Nicholas, last of the
Csars, when he was a man of twenty.
Powell, as socialist who hates
Russians, is commissioned to carry a
message offering release of the
Caesarevich in exchange for the re-
lease of socialist prisoners.

It hides his papers in one of a
pair of candlesticks once used for
this purpose by Marie Antoinette.
Miss Rainer as a secret agent for
the Russian police conceals papers
in the other candlestick. The story
then revolves into an exciting race
between these two for the candle-
sticks which are stolen by thieves
who do not know of the players
within them.

Among the featured players in
the exceptional cast supporting
Powell and Miss Rainer are Robert
Young, Laurence O'Sullivan, Frank
Morgan and Henry Stephenson. Al-
so prominent in the cast are Bern-
adette Hayes, Donald Kirk, Douglas
Dunbrille, Charles Waldron, Ian
Wolf, Barnett Parker, and Frank
Reicher.

Modernistic Crochet Chair Set by Mayfair

Mayfair Needle-Art

Design No. 272
Every needlewoman knows how quickly openwork
designs are done. Not only is this pattern quickly and
easily worked, but it is also one of the prettiest, lacy
sets it is possible to imagine. These chair sets are in-
valuable in keeping the living room neat and attractive.
A set of four arm covers makes an attractive luncheon
or dresser and vanity set, and two back covers, worn
to a length of linen or cotton makes a beautiful run-
ner. The pattern includes complete crocheting instruc-
tions without abbreviations. If you wish this pattern,
write to The Vernon News, and enclose 20 cents.

Combined Teams From North Gives Southern Cricketers A Beating

Losers Dismissed For 130
Runs And Winners Roll
Up Score Of 193

A picked team from the North
Okanagan travelled to Kelowna on
Sunday and defeated an eleven
chosen from the south end of the
valley.

The southerners were dismissed
for 130 runs. This score the north
passed with only three men out and
then went on to compile a total
of 193.

They owed their victory to some
fine bowling by Unsworth, of the
Vernon City, who at one period had
an analysis of four wickets for 11
runs, and by Owen Karn, who
claimed three wickets early in the
innings. They were supported by
good fielding, Monk being particu-
larly alert, and with some fine bat-
ting by Tomkins and Roberts, who
added 101 runs for the fourth wick-
et. Karn played well for 24 and
Steve Temple hit vigorously for 29
not out.

For the south, Ted Matthews, vet-
eran Kelowna runder, took six
wickets for 65 runs. Two of the
southerners were absent and Wal-
ter Bennett, of the Legion, and
Duke, of the Farmers, played, the
pair adding 87 runs for the last
wicket.

Quinn and Malkinson opened
against Chambers and Karn and
with 12 runs on the board, Quinn
had the misfortune to play a ball
from Chambers into his wicket
after scoring eleven without any
addition to the score. Malkinson
was clean bowled by Karn, who got
Kiddston out at 17. Hill joined John-
son and they added 22 runs for the
fifth wicket, the latter was caught
off a

LIVESTOCK PARADE IS AGAIN FEATURE OF FAIR'S PROGRAM

Magnificent Display Thrills Crowd On Last Day At Armstrong

ARMSTRONG, B. C., Sept. 20.—The grand livestock parade which got under way at 1:45 was the culminating point of the last day of the fair.

The horses led by Green's Landers were the first out and practically circled the track and as they slowly moved around the spectators had a fine opportunity to see what a splendid showing of horses was on exhibit.

As the parade passed in front of the grandstand the principal prize winners and their owners were announced by W. Durno who had judged most of the horse classes. After the horses came the cattle and so long was the parade that it had to be taken round the track in two relays.

Headed by the Vernon Kildonan Pipe Band the parade continued. With the Ayrshires in the lead and then the Jerseys, it was a magnificent sight to see the continuous stream of fine well kept animals as they slowly circled the track.

Mat Hassen at the loud speaker added to the interest in the parade, announcing the various owners and their winnings as they passed in front of the grandstand and the crowd heartily cheered as the different groups took their bows.

Guernseys, Holsteins and Herefords, the finest of their kind, followed a display of stock that will long be remembered by all those privileged to see it.

Last in the parade was "Andy" Patterson with his fine husky on the lead and as he passed in front of the stand he got a great hand. The Vernon Sea Scouts Bugle Band entertained the crowd at intervals during the afternoon, their playing and drill being very much admired and providing a break in the afternoon's sport.

Green's Landers, a group of teen-agers from Salmon Arm, gave a fine demonstration in their musical ride, and their performance would compare most favorably with what has been seen here given by much more experienced riders. Their display of tent pegging was also a fine display and to all their work they showed a smartness that reflects great credit on their instructor and at the end of both their appearances they got enthusiastic applause.

RODEO ENJOYED

The rodeo provided the crowd with lots of excitement and was well received. Some real action was seen when the cowboys took the field. The exhibition of steer wrestling was particularly good. In the bull riding competition there was seen a really fine display of riding and the winners had to show great skill to get in the prize money. The winners were: 1, Moose Kruger, Penticton; 2, Eddie Kruger, Penticton; 3, Mike Carlin, Alberta, who also got the prize for the fastest cowboy.

The calf roping event was a source of great amusement to the crowd when some of the competitors who failed to get their calf showed their discomfiture in a comical manner. The successful ropers and their times were: J. Hill, Moss, Wash., 27 seconds; Billie Black, 30 1/2 seconds; Harry Shuttleworth, Okanagan Falls, 33 1/2 seconds.

The wild steer race was another item that was well received. The winners in this were: 1, Harry Shuttleworth, Silm Dorin, Nicola, and 2, Jacobson, Carstairs, Alta.; 3, Robillard, Chase, Mike Carlin, and Silm Gates, Weyburn, Sask.; 4, Albert King and Eddie King, Falkland, and Howard Grahame, Monte Lake. The wild steer ride was won by Ray Miller, Douglas Lake, and Mrs. Holt, B.C. district, got the prize for the best ride by cowgirl. A fine display of rope spinning and trick roping was given by Silm Gates and a display of slack rope walking and balancing by Roy S. Seward, of Golden, showed that a cowboy could do more than ride horses, and he was given a hearty hand for his display. Taken all over the rodeo provided some fine clean entertainment and was extremely well received by the large crowd.

H. Hayes won the Roman race; M. Washington the three-quarter mile open; and A. Smithers, of Vernon, the junior half-mile, in the horse racing program.

The amateur show staged in the Drill hall in the evening provided what was without doubt the best variety entertainment ever offered in Armstrong and so many entered that it took two hours to get through. The judges had no easy task to pick the winners but their placings seemed to meet the approval of the large crowd that assembled.

ARMSTRONG TO HAVE RECREATION CENTRE

To Use Recreation Hall—John Hassard Is Appointed Instructor

ARMSTRONG, B. C., Sept. 16.—J. Lynes, supervisor for the Okanagan Valley, and J. Hassard, Armstrong, instructor for the recreation and physical education department, were assured on Friday afternoon, at an interview with Mayor F. L. Sugden, that the Recreation Hall would be made available for classes to be held in Armstrong.

The classes will start the first week in October, two nights a week for men and women, sixteen years and over. The program will include vaulting, tumbling, acrobatics and fundamental gymnastics. British Columbia is leading all Canada in physical training both in schools and in recreation centres, and it is not attempting to train a few selected athletes to become record-breakers, but in trying to help everyone who is interested in physical culture to find his best athletic aptitude and to develop it for the benefit of himself and others.

A meeting will be held, the date of which will be announced later, when further particulars of the course will be given and membership cards issued.

ARMSTRONG PAINTER EXHIBITS AT COAST

A well known figure in the Okanagan artistic circles, C. W. Holliday, of Armstrong, has recently had a one man show of watercolors on exhibit at the Vancouver Art Gallery, and it has received very favorable notice from the Coast press and from observers.

Mr. Holliday, who has exhibited in this city, has pictures on display that deal largely with natural scenes in the Interior. With vivid coloring and an excellent sense of proportion, the work has the charm of simplicity, and should inspire many people to visit the scenes depicted. "Drowsy Autumn", painted near Hope, is among the most striking.

Big Bend

(Continued from Page 1)

Inducement, it was suggested, is that cities and towns are found fairly close together. A motorist can easily find a place to stop for the night. He does not have to contemplate a very long "jump" between resting points. Then, of course, there is the scenery of the Okanagan, splendid and unique. This scenery, too, offers a change from the evergreen, mountainous country of the Big Bend. A tourist would welcome the contrast. Sporting and recreational attractions were also emphasized.

Frank Allwood, President of the Revelstoke Board of Trade, and Mayor Walter Hardman extended a welcome to the visitors, among whom were several from the United States. They stressed the international good feeling that is a potential development of a tourist traffic from Canada, down through the Okanagan, into the state of Washington.

Brief speeches were given by Dr. Douglas Dewar, of Chelan, President of the Okanagan-Cariboo Trail Association; by Harry Broad, of Kelowna, Vice-President; Willard Abel, of Wenatchee, 2nd Vice-President; R. G. Rutherford, of Kelowna, Secretary-Treasurer; and Larry Wood, Penticton, the association's manager.

In all the remarks there was emphasis laid upon the desirability of tourist trade that will assuredly follow the completion of the Big Bend Highway.

The visitors gained confidence in making this prediction, as the result of trips they had taken out along the Big Bend route during the afternoon.

BEAUTIFUL ROUTE

Out past Silver Tip Falls, Laforme Creek, the magnificent gorge of Carnes Creek, and other scenic points, out along the splendid winding avenue that leads its way through thick evergreens, following the twisting course of the Columbia River; out under sparkling glacial Selkirk peaks, the Big Bend road from Revelstoke offers a new and interesting view of the interior.

The road is excellent. It is well-graded, banked, with wide safe curves. Out to 60 miles beyond Revelstoke it has been completed. And when about 23 more miles are put through, the route will be a "through" one.

One of the most important, probably the most important, of Canada's present-day highway projects, the Big Bend road provides the last link in the highway program that crosses Western Canada. The Trans-Canada Highway will eventually span the Dominion, from Halifax to Vancouver. Only a portion of the project, through northern Ontario, is as yet incomplete.

The Big Bend road, from Donald to Revelstoke, will be 177 miles in all. Its construction, which presented many problems, is just about complete.

These are statements easily written, easily read, but it requires a trip over the road to visualize, even to slight extent, the work that has been undertaken, and undertaken most capably.

It is evident that at many points the solid rock had to be blasted. Sidehill-cuts were very numerous. Here and there, flashing over bridges, the motorist catches glimpses of tiny streams, far below. Gorges and high canyons had to be built over as the road progressed. But these and other difficulties have been surmounted, and the road is almost ready in its entirety, ready to serve the public of Canada.

Among those who made the trip up to Revelstoke last week-end were Mr. and Mrs. Willard Abel, of Wenatchee; Dr. and Mrs. Douglas Dewar, of Chelan; Mr. and Mrs. Harry Fischmoller, and their son, of Omak; Larry Wood, of Penticton; Mr. and Mrs. Harry Broad, Mr. and Mrs. Harry Chaplin, Mr. and Mrs. Don McLean, R. G. Rutherford, Dick Parkinson, Tim Armstrong, and Jack Brechin, of Kelowna; Mr. and Mrs. G. J. Rowland, Jack Ascroft, and Allyn Harris, of Vernon. The Hon. K. O. MacDonald, Minister of Agriculture, who had been visiting his constituency of North Okanagan, accompanied the Vernon party over by motor, and inspected parts of the Big Bend road, before catching the evening train to return to the Coast.

Children of Kents Off For Sandringham

Spending but one day in London, following their seaside holiday at Sandgate, Kent, Prince Edward and Princess Alexandra, children of the Duke and Duchess of Kent, leave their London home, with nurses, for Sandringham and a stay with Queen Mary.

Lonely Little Traveller . . .

Provides problem for kindly C.N.R. official in this city

E. H. Harkness, valley traffic representative of the Canadian National Railways, meets many problems during the course of a week's work—two of them finding parents for strange, lonely, little boys who are far from home certainly does not come under the usual routine.

Still, when such an unexpected problem does happen, it has, of course, to be managed as quickly and efficiently as possible. Dick Howard, aged about seven, arrived at the union station one morning last week in care of the conductor. He had boarded a train at a small Saskatchewan town, and the arrangement was that his parents would meet him immediately on arrival here.

Somehow these plans miscarried and no one was at the station to assume charge of Dick. Complicating the situation still more, Dick did not seem to be able to furnish many particulars. In fact his parents have only been in the valley a month, and are practically unknown. All Mr. Harkness could do was to assume charge of the lad, make a search for the missing parents, and hope that they would soon appear.

Here's what happened—A few hours passed, but still no sign of Dick's parents. Several more hours passed, still no sign. At last an excited woman appeared at the C.N.R. offices on Barnard Avenue.

Introductions were practically dispensed with, and Dick was soon restored to his family. Mr. Harkness' nerves are reliably reported to be in excellent condition once more.

Correspondence - -

Wholesalers Have A Grievance

Editor, The Vernon News, Sir: The attached copy of a letter sent to the Tree Fruit Board is being forwarded to you for information.

Edmonton, Alta., Sept. 15, 1937. Tree Fruit and Vegetable Board, Kelowna, B.C.

We, the undersigned wholesalers operating on the Edmonton market, feel that, in the best interests of the industry, certain grievances should be brought to your attention as and when they crop up.

During the present soft fruit season two very glaring instances of lack of merchandising judgment have caused us, as distributors, untold grief. This particular market has been swamped with small size peaches on which it has been impossible to obtain regular prices. Actual instances show as high as 90's shipped to small country points.

A similar situation exists on pears. We have received wrapped Bartlett's packed 24's to a case and it seems to us not only ridiculous but manifestly unfair to wrap anything smaller than 180's.

Disposal of these small sized pears and peaches is extremely difficult and they should not be included in any shipment except at a discount sufficiently attractive to interest the consumer. It is only logical for a housewife to refuse to pay 24's pears when she can obtain the same weight of the finished canned product by paying 180 or less at no extra cost.

We earnestly suggest that you as a board establish minimum marketable sizes of say 84's or 90's on peaches and 180's on wrapped pears and insist that these be strictly adhered to. If it is essential to pack small sizes as a salvage proposition for the growers they should be marketed as such at a fair spread in price under regular sizes.

The present set-up is too one-sided. There should be closer co-operation between prairie distributors and B.C. growers in formulating marketing plans to produce maximum distribution.

Yours very truly, BROWN FRUIT CO., Geo. Manson, Mgr. (Sgd.) H. H. COOPER LTD., J. Fazackerley, Fruit Mgr. (Sgd.) MACDONALD'S CONSOLIDATED LIMITED, T. Campbell, Mgr. (Sgd.) NATIONAL FRUIT CO., S. Essery, Mgr. (Sgd.) ROYAL FRUIT COMPANY, C. Waters, Mgr. (Sgd.) SCOTT FRUIT COMPANY, H. Harrison, Mgr. (Sgd.) WESTERN GROCERS LIMITED, H. S. Giles, Fruit Mgr. (Sgd.)

Favors Price Guarantee

Editor, The Vernon News, Sir: In your Editorial of September 2, entitled "Let's Get A Fair Price For Our Splendid Fruit," two paragraphs appear to me to be of particular significance. They are the following:

"Is it that we have so little faith in our ability as traders and merchandisers? Does not the most of it lie with our system of consignment?"

And again, "A cent a pound or on the ground spirit at least would not let the growers into debt for packing charges."

I welcome your bringing up this angle of the fruit deal, as I have for years held the opinion that sooner or later the grower will have to insist on some definite price guarantee for his fruit before it leaves his hands. Unless and until this is brought about, we shall continue to beat the air and launch all kinds of schemes of regulation and governmental political interference, which have created a most profitable means of livelihood for lawyers, fruit politicians, and other officials.

The guaranteed price idea was considered by a committee appointed in 1934, but was killed by the adverse influence of the shipping interests, both co-operative and independent, who saw that they would have to do considerable internal organization and would have to take risks which were then, and still are, taken 100 percent by the grower.

There are, no doubt, many angles to the argument, but if the main principle be adhered to I see no very serious difficulties cannot be ironed out. If the will is there, the means will be found, and it is futile for men to say this or that is impossible; they either don't want to do it or they don't know how to do it.

I am afraid that we growers, as a body, do not realize the absolutely absurd position in which we have placed ourselves, and we are either so hard-boiled with preconceived notions as to be financially involved with the shipping interests that we are loath to come out in the open.

We cannot blame the shippers for holding on to a soft job. No doubt we would do the same were we in their position. It has ceased to be a fruit growing industry and has developed into a very flourishing fruit packing and shipping industry.

The reason given for the necessity for control, with its many ramifications, is that it prevents the shipper from cutting prices. However, the reason why he is able to cut prices is that the fruit is not his own, and he is not financially interested in the result. If the shipper had paid for the fruit, he would think twice before he cut prices or allowed claims, which he would be unable to pass back, as at present, to the grower. We have heard time after time that some market being deliberately "shot to pieces," and fighting cars of fruit have often been sent out by shippers with the idea of hurting some other dealer. In both cases, although the shipper handled the machine, run, the grower supplied and paid for the ammunition, his fruit.

Yours faithfully, Penticton, B.C. F. H. KEANE.

SALMON ARM GOLFERS WIN FROM KELOWNA

SALMON ARM, B.C., Sept. 20.—In a nip-and-tuck inter-club golf match over the local course Sunday, Salmon Arm finished ahead of Kelowna. Several excellent match scores were turned in by the participants.

FORESTRY EMPLOYMENT CAMP AT DERBY HILL TO BE PERMANENT ONE

TRINITY VALLEY, B.C., Sept. 18.—The forestry employment camp near the Derby Hill, which is in charge of Fred Warner, of Mabel Lake, is being made into a permanent camp for next season.

The camp will be capable of handling around fifty men. This season the men have been busy putting up buildings, making fire and other trails and fire guards and a recreation ground.

Miss Bostock, of Monte Creek, was a visitor to Trinity Valley this week, in the interests of the Anglican Sunday School.

H. Worth took several exhibits of his fine Holstein herd to the Interior Provincial Fair, Armstrong. Exhibitors at the fair are as faithful exhibitors, or have a more difficult task to get their exhibits there, than Mr. Worth. Each year he wins a steady list of prizes.

Mr. and Mrs. D. Saunders gave a card party for their friends on Thursday evening.

Dave Fowle, of Vernon, was a guest of Mr. and Mrs. J. Grant last week end.

GAY PARIS CAFE IS SCENE FOR EXCITING NEW COMEDY-DRAMA

The screen's most exciting sweetheart-lovely Loretta Young and the romantically handsome Tyrone Power—play love's most exciting game while Adolphe Menjou looks on in Century-Fox's dazzling comedy which comes on Monday and Tuesday, September 27 and 28, to the Empress Theatre.

Continental romance of the gayest and lightest sort—luxurious as orchids on ermine, smart as the Rue de la Paix, merry as the thin glass of champagne, romantic as moonlight on the Seine—"Cafe Metropolis" winds its amusing way against the background of gay Paris and the Continent's most luxurious rendezvous, with Gregory Ratoff, Charles Winninger, and Helen Westley joining the three stars in the excitement.

The lively course of "Cafe Metropolis" begins, properly enough, in one swans spot of that name where Adolphe Menjou, suave and sophisticated, presides deftly over the affairs of the restaurant and wonders how he can restore a borrowed 480,000 francs before the auditors arrive.

Yours faithfully, Penticton, B.C. F. H. KEANE.

SALMON ARM GOLFERS WIN FROM KELOWNA

SALMON ARM, B.C., Sept. 20.—In a nip-and-tuck inter-club golf match over the local course Sunday, Salmon Arm finished ahead of Kelowna. Several excellent match scores were turned in by the participants.

CEREAL . . . WITH SOUND EFFECTS!

Kellogg's Rice Krispies tempt appetite with sound! They're so crisp and crunchy that they crackle in milk or cream! And they taste as delicious as they sound!

These golden rice bubbles are always ready to serve. So light, wholesome and easily digested that second helpings are always in order. Serve them for breakfast, lunch and the children's evening meal.

Your grocer sells Rice Krispies. The waxlike inner bag keeps them oven-fresh. A Singing Lady story printed on each package. Made by Kellogg in London, Ont.

SO CRISP they crackle in milk or cream

High Colored Apples Will Always Find Market In Britain

—J. R. COLYER

Director Of Old Country
Firm Points To a "Magnificent Future"

WASHINGTON EXPORTS
ALMOST ELIMINATED

Hope Is That This Year's
Crop Will Maintain
Quality Reputation

That there is not now five per cent of the Washington apples on the British market that there was ten years ago, is the astonishing statement by John B. Colyer, director of The Fruit & Produce Exchange of Great Britain Ltd., London, the firm handling the Associated Growers apples in Britain.

This is how the picture has changed in the fruit situation and it is no doubt a remarkable example of one of the advantages which Canada has derived from the Ottawa agreements entered into in 1932 under which Empire apples have an advantage on the British markets of four shillings and sixpence per hundredweight.

Apple growers in the States south of the line, were hoping that this year the British Columbia exporters would set the prices up a trifle. There is an immense supply of low grade apples of small sizes in Washington that would simply have flooded the British markets. As it is, they probably will not be picked.

The wonderful impression made on the British people by the magnificently high colored apples grown in 1936 in British Columbia, was mentioned by Mr. Colyer. The apples sold on color and the fruit trade was quite impressed by the high quality.

It is hoped that the crop this year will be of a quality to maintain the favorable impression made. There are different opinions and very striking differences in the color in many orchards. Last year, at times it was difficult to decide which apples were Ex-Fancy and which Fancy. This year, it is feared there will be no difficulty on this score.

Okanagan apples will always find a ready market in the Old Country, that is the desert varieties, if there is consistently uniform adherence to the high standards of grading. Mr. Colyer sees a truly magnificent future for our apples on Old Country markets if there is rigid adherence to the high color requirements and the supply is consistently maintained.

An interesting fact brought out by Mr. Colyer is that Britain now grows more cooking apples than can be consumed at home. Last year about 20,000 tons, or the equivalent of 1,000,000, 40-pound boxes

WOODS BARBER SHOP OCCUPIES FINE NEW PREMISES IN CITY

Recent changes in the business section of Barnard Avenue are of interest throughout this city and district.

Last week saw the J. B. Woods barber shop and billiard parlor move into its fine modern premises next to the Royal Bank building. Mr. Woods, who has been in business in this city for many years and is well known and highly regarded, announces that he has secured the services of another barber, J. E. Wilson, of Vancouver.

The other part of the new building, recently constructed by the Great Dominion Land Co., will be occupied October 1 by the O.K. Saddlery. The proprietor is William Farquharson.

Mr. Woods' former premises on the corner of Barnard Avenue and Vance Street are at present undergoing a renovation and will be opened shortly as a grocery store to be operated by W. F. Hamelin and son, formerly of LaFleche, Sask.

NOVA SCOTIA APPLE CROP HIT BY GALES

HALIFAX, Sept. 15.—Annapolis Valley apple growers this week confirmed an estimation of 600,000 barrels, valued at approximately \$1,500,000, as their loss in two gales which swept through the Nova Scotia fruit belt early Sunday and again Tuesday.

of cooking apples were exported from Britain to Belgium, and still the British agriculturists are planting apples and new orchards are coming into bearing each year. This does not, in the opinion of this British importer, greatly prejudice British Columbia's opportunities for the sale of the finest dessert apples, the McIntosh Red for which the North Okanagan is famous. The finest move B.C. made in many years was to keep the Cee grade Macs at home.

Mr. Colyer has left the Okanagan and gone south with Thos. A. Dutcher, their representative, who lives at Portland, Oregon, where he is centrally located so as to deal with the Sunkist oranges of California, for which his firm are agents in Britain.

During Mr. Colyer's visit to the Okanagan, the first in three years, he was the guest at the home of Mr. and Mrs. Dave McNair.

With The Fruit & Produce Exchange in London is Mr. Kemp, well and favorably known to Okanagan people when a member of the firm of Goodwin Simons Limited. Mr. Kemp sends regards to Okanagan friends.

JOE HARWOOD NAMED PRESIDENT OF OLD TIMERS' ASSOCIATION

Hon. K. C. MacDonald Pays
High Tribute To Pioneers'
Work and Spirit

ARMSTRONG, B.C., Sept. 21.—Old timers of the North Okanagan, at their annual banquet here on Wednesday afternoon of last week, elected "Joe" Harwood, of Vernon, as president of the association for the ensuing year. He succeeds H. M. Walker, of Enderby. A. J. Pifer, of Armstrong, was re-elected as secretary.

High tributes were paid by speakers at the banquet to the old timers, men and women pioneers of the Okanagan. The Hon. K. C. MacDonald, minister of agriculture, and for thirty odd years a welcome figure at the exhibitions, commented particularly on the work and spirit of the old timers.

In his address of welcome, Mayor F. L. Sugden laid emphasis on what the later generations owe to the pioneers of this beautiful valley. "They have set us a challenge," he said, "that we cannot escape if we are to do our part in the further development of the Okanagan. Past president C. B. Lefroy read the names of those who had "passed on" during the past year, and these were honored by the usual period of silence. They are:

PENTICTON MAN FINED

PENTICTON, B.C., Sept. 21.—Cyril M. Fisher of Penticton, who had been in jail since Labor Day, pleaded guilty to a charge of being in possession of a weapon without permit, in Police Court here on Tuesday morning.

After hearing the evidence of Constable J. Emslie of Provincial Police, who prosecuted, Magistrate George A. McLelland imposed a fine of \$100 without costs, or in default thereof, three months imprisonment. With the consent of all parties the charge was tried summarily in Police Court, as is permissible under the criminal code.

Farm Laborer

(Continued from Page 1)

without a roof to protect them from the blazing sun, and are now being regarded as farm laborers.

At least this appears to be the gist of the matter. Mr. Ricardo has ten acres of asparagus which were about five years in coming to maturity and from which for several years he had little or no return. This year he employed labor to cut the asparagus in the field, to transport it to a shed where it was cut to the length demanded by the cannery and the stores he was supplying. The asparagus was not tied, the boxes were not lidded.

Apparently the work of cutting is farm work in the opinion of the Industrial Relations Board, and the less arduous labor of cutting and placing it into boxes is a packing house operation and commands a hourly rate, which is much higher. The question here is discussed and discussed and Mr. Ricardo is in danger of having court proceedings taken against him. He has made representations that have not resulted in his favor.

It is understood that a great number of growers of asparagus who employ assistance under almost identical conditions, are urging the Board not to make a ruling which may result in killing an increasing activity, the growing of asparagus for market.

It is believed that if the Board's order is to be literally enforced a man working as a farm laborer, if asked to do a bit of carpentry, such as mending a shed door, would be entitled to a carpenter's wages while doing so.

CASE AGAINST CAFE OWNER IS DISMISSED

A charge against C. F. Lee, proprietor of the Broadway Cafe, of failing to keep records of wages and hours of labor under the Female Minimum Wage Act, was dismissed by Magistrate William Morley in police court on Monday afternoon.

Two inspectors of the department of labor, William Dysart and Alex Clark, testified that on September 15 they visited Lee's cafe. He told them, they declared, that he had not kept any records of his employees' hours of work or wages paid, during July and August. These records had been destroyed, he said, but he had them for the month of September.

Lee's counsel, Gordon Lindsay, pointed out that the inspectors had paid their visit during September, and had demanded records for July and August. There was nothing to show that he had not the necessary records during the period covered in the charge, he said. The magistrate accepted Mr. Lindsay's presentation, and dismissed the case.

MRS. CLARA E. HUGHES PASSES AT HER HOME

A British Columbia resident for almost half a century, Mrs. Clara Emily Hughes passed away at the home of her son, E. Leigh Hughes, of the B.X. district, on Thursday of last week, September 16.

Though advanced in years, Mrs. Hughes was of a particularly bright and happy disposition and held the highest regard of those who knew her. Death was the result of natural causes, and she had not been ill for any length of time.

Born in Prince Edward Island, 17 years ago, Mrs. Hughes came to Vancouver as a young woman, in 1888. For the past 17 years she had made her home in the B.X. district.

Surviving are three sons, E. Leigh Hughes, of the B.X.; Cleaver Hughes, of Vidette Mines, near Kamloops; and Vernon Hughes, of Powell River.

The remains were forwarded to the Coast for cremation, which was held on Saturday last.

Prairie Relief

(Continued from Page 1)

E. B. Townrow, Walter Bennett, Richard Peters, and others.

Committee members point out that it is most necessary to have a ready response on the part of the general public for funds. All fruit, of course, will be donated, and will consist principally of Wealthies. Picking and hauling charges have still to be met, though, and if any volume of apples is to be sent to the drought areas \$1,000 will certainly be needed. The entire amount will be spent locally as the Saskatchewan government allows a fixed sum for loading, and the railways haul the cars free. Local packing houses have agreed to co-operate on the same basis as in past seasons. Growers have been organized and asked to estimate what supplies of fruit they have on hand.

KELOWNA, B.C., Sept. 22.—Armand Brisson, a transient, is wanted by provincial police here on a charge of uttering a forged document.

Town and District

J. G. Jeffrey, of Winnipeg, general agent, C.P.R., is in Vernon today, Thursday.

Mrs. G. N. Gartrell, of Summerland, has been a visitor to this city, staying at the home of her sister, Mrs. J. Crawshaw.

Mr. and Mrs. Dougald Campbell, of Vancouver, were visitors to this city this week during the course of a motor tour of the valley.

Mrs. William Neeland, formerly Mrs. J. M. Spencer, of Vancouver, has been visiting her sister, Mrs. G. E. Whiten, in this city, for a few days.

Miss Betty Shields, of Lumby, left Vernon on Wednesday evening of last week for Regina, Sask., where she will enter the Conservatory of Music, Regina College.

Wilfred Johnson, of Vavenby, north of Kamloops, who operated a lumber business in the Lumby district some eight years ago, has arrived in Vernon with his son for a few days' holiday.

Victor Collier-Howard, editor of the "Municipal News," is a Vancouver visitor in the valley. He was in this city early on Wednesday, and left later for Ewing's Landing, where he is the guest of friends.

After spending some weeks visiting at the home of her brother-in-law and sister, Mr. and Mrs. J. T. Mutrie, of this city, Miss Bethune is leaving this evening, Thursday, for her home in Seaford, Ont.

F. P. Galbraith, editor of the Red Deer Advocate, is a visitor to Okanagan Valley points this week. He has been holidaying at Vancouver and, after spending Tuesday and Wednesday in Vernon, went to Penticton and Kelowna for a couple of days.

Caretakers at the Country Club will be kept at the premises until September 30, it was decided at a recent executive meeting. The end of this month will see activities concluded for another season, though courts will be open to those desiring to use them. A final dance of the season at the Club planned for this coming Saturday has been cancelled, because of the Junior Hospital Auxiliary dance on Oct. 1.

E. Henderson, of Penticton, and former clerk of the municipal office of Coldstream, is in Vernon this week for a short period. This is only the second occasion since he retired from his duties in the Coldstream that Mr. Henderson has been able to spare the time to come to this city, he has been in charge of the Coldstream, as well as his extensive auto camp at Penticton, one of the finest in British Columbia.

Mr. and Mrs. John Clark, two old time residents of Mission Hill, have left Vernon after living here for the past fifteen years. Mr. Clark left last Monday week, going to Ottawa with his niece the Misses Galbraith of that city, with whom she will make her future home. Mr. Clark, who is in his 90th year, plans to live at the home of his granddaughter, Mrs. Wm. Coleman, at Biggar, Sask., who has been visiting him in Vernon, and who left with him by train Monday evening of this week.

Mr. and Mrs. H. A. Nolan were winners of the Waterloo Cup, for mixed foursomes, 36-hole medal rounds, over the Vernon Golf Club course on Sunday last. Entries totaled 16, and Mr. and Mrs. Nolan tied with Miss Margaret Saunders and W. D. McTaggart for second place. Play is advancing in the cup competitions, and this coming week end should see several important matches concluded. Gordon Rutlan is one finalist for the Coldstream Cup, for the club championship. Arthur "Jimmy" Cochran will play the winner of the semi-final round between Hazel Nolan and Len Backler in the other bracket.

Mr. and Mrs. R. F. "Copy" Raikes expect to be leaving this city next Tuesday for North Vancouver, where they will be making their home in the future. Mr. Raikes has received word of his promotion to the position of accountant in the Bank of Montreal there, after having been on the staff of the branch in Vernon for the past two and a half years. Earlier he also saw service on the staff here, from 1924 to 1926, and he has formed a most extensive circle of friends who will learn with real regret of his leaving. Mr. Raikes will be the same time congratulating him on his advancement in the bank's service. Mrs. Raikes will also be keenly missed by her many friends, for she has proven to be highly popular, and prominent in many activities. Just recently she was re-elected to the position of 1st Vice-President of the Junior Hospital Auxiliary. Mr. Raikes, interested in many undertakings, has been particularly valuable to the golf club, for which he has acted as a capable and energetic secretary.

Peaches Being Canned This Season Are Of Much Better Quality

Splendid Size And Color Provide "Eye-Opener" For Newspaper Men

Growing peaches for the cannery is quite a different thing from growing them for the fresh fruit market.

In the past three years there have been constant complaints from the cannery that the only peaches they could secure were either too green or too ripe for shipping. They could not get the tree ripened peaches they require.

Last winter the Cannery showed the editors of the Vernon News and Country Life in B.C. peaches they said were grown in the south end of this valley in 1935, the only ones available. They were compared with the peaches canned in Washington and the Lynn Valley peaches grown and canned in the Okanagan valley of Ontario. The comparison appeared to bear out Willis West's contention that they could not sell the B.C. grown and canned product in competition with the imports.

Sample cans of the several peaches brought to the valley were opened at a meeting in Kelowna, attended by three newspapermen, officials of the government, Tree Fruit Board, and the B.C.F.G.A. executive.

Recently a letter was received by The Vernon News and Country Life went to Penticton, A. E. Lloyd of the B.C.F.G.A. Together they went south, to look into the peach canning complaint and to attend a meeting of the Tariff Committee of the B.C.F.G.A. with officials of the Dominion Government.

Unsettled efforts were made to locate President E. J. Chambers of the Associated Growers in Penticton. When Les Roadhouse of the Penticton Co-operative Growers was seen, he expressed an eager willingness to show the type of peaches available to the cannery.

Accompanied the party to the Bennett orchard where a large block of peaches of the J. H. Hale variety had been set aside for the cannery and where peaches were ready for delivery. At the orchard, Mr. Bennett accompanied the party, and they drove to a block of J. H. Hale peaches where 16 tons, picked and in orchard boxes, awaited transport to the cannery.

The peaches were of a size, color, and a quality which astonished the visitors, they were so lovely. Twenty tons had been delivered. Sixteen tons had been picked, and the balance of the 30 tons Mr. Bennett agreed to deliver, were hanging in rich profusion on the trees. Mr. Bennett and Mr. Roadhouse admitted they had spent some sleepless nights because of the danger of wind sweeping the luscious peaches from the trees. Mr. Roadhouse audibly regretted he had not them for sale on the fresh fruit market and said the price the cannery had contracted, \$65 the ton, probably could yield a great return as if the peaches had been picked in the ordinary green state for shipment to the fresh fruit market. That is, if the wind left them on the trees until they were declared by the cannery to be just as he wanted them for processing.

From the orchard the party went to the Cannery plant in Penticton where Mr. Erat was seen. Peaches were being processed. Mr. Erat was anxious to show the visitors everything there was to see and opened several cases of peaches which he said had been picked green which were not so inviting as the others though the flavor was good. A can of peaches said to have been imported showed uniformly bright peach color.

The visitors departed admitting in their opinion the difficulty of delivering peaches just as the cannery would have them and after questioning Mr. Erat if the peaches from the outside had not been put over a grad and the green ones eliminated, or if there were not some process employed elsewhere to which the Penticton canned peaches are not subjected. Peaches sliced showed a uniformity which the peaches cut in half did not possess.

It did not appear to the newspapermen that peaches of a better quality or more ripe can be delivered to the cannery and still Mr. Erat persisted he had a load from Oliver which were better.

The difficulty in growing peaches for canning is admitted. They must be of a degree of ripeness which gives the grower the jitters for fear a wind will sweep them off the trees and he would suffer the loss.

SIDNEY KING-BAKER PASSES AT ENDERBY

Came To Okanagan In 1928 —Funeral Services Today, Thursday—

ENDERBY, B.C., Sept. 22.—After a long and serious illness of many months, Sidney James King-Baker died on Tuesday morning, September 21.

Mr. King-Baker was in his 62nd year and was a much respected and admired man of the community, and it was with deep sorrow and regret that his many friends from far and near received word of his death.

Mr. King-Baker was born in 1875 in Cheltenham, England. He served his apprenticeship on a sailing vessel as a young boy.

Later he took up sheep farming in Australia, and then went to a tea plantation in India for many years.

It was in 1919, that he was married from St. James' Cathedral, Bombay, to Miss Violet Reynolds, the present Mrs. King-Baker.

In 1928 he decided to retire, and accompanied by Mrs. King-Baker came to Canada and settled in Enderby.

They bought what was known as the Fraser place on the back Enderby road, where they have lived ever since.

For the past two years Mr. and Mrs. King-Baker have spent the winter months in California, escaping the cold weather of the Interior, as Mr. King-Baker has been in failing health since he had suffered a stroke three years ago.

For many years, Mr. King-Baker had been a prominent Mason, and his funeral services will be conducted by members of the Enderby Lodge No. 40, A.F. & A.M., on Thursday, at 2:30 p.m., from St. George's Anglican Church.

Mr. King-Baker is survived by his widow and by a number of brothers and sisters in England.

Visitors to Vernon are Mr. and Mrs. Norman Clarke, of Didsbury, Alta. They are the guests of their son and daughter-in-law, Mr. and Mrs. Everard Clarke, and have been enjoying their delightful stay here. At Armstrong, at fair time, Mr. Clarke had a particularly enjoyable time. "I was absolutely dumbfounded at what I saw there," he told The Vernon News, "I had no idea that you had such a diversity of products in the Okanagan, and products of such outstanding quality. I've seen many fairs in my time, and your Interior Provincial Exhibition takes excellent rank."

C. A. Whitelock, of Vancouver, general representative, Canadian White Star Line and Dominion Atlantic Line, was in Vernon on Tuesday. Mr. Whitelock announced that the Donaldson Line Ltd. has recently launched a new vessel, the "Salacia," which is arriving in British Columbia ports during this week, on her maiden voyage. This ship is a modern vessel, especially adapted to conform with requirements of the apple and pear movement from the northwest, and Okanagan shippers have reserved considerable space in her. She has been fitted with the most modern equipment to ensure rapid handling of cargo and has six refrigerator compartments, Mr. Whitelock says.

"Dick" Parkinson, of Kelowna, has severed his connection with the Kelowna and Okanagan basketball associations, followers of the sport have heard, with regret.

EVERYBODY LOSES THROUGH SELLING UNRIPE FRUITS

A GREAT deal depends on whether the fruit growers are going to exercise their undoubted rights in the marketing of their fruits.

Okanagan Valley residents who stray into the markets on the Prairies come away with misgivings.

Despite the Maturity Committee and the Dominion Inspection Service, if they have any authority, our soft and stone fruits, our tomatoes, our early apples, go out too green.

Pay your good money for an Okanagan apple, a peach or a prune at a store in any of the Prairie centres and bite into it?

What is the almost invariable reaction? Is it rich enjoyment and hearty satisfaction? Is it not rather an unexpected and unwanted surprise?

Well, figure out what that does to our cousins on the Prairies. True, they have not the same intense reaction you have, because they may not really know how delicious our tree ripened fruits are, but unripe fruit is a market dampener. It kills rather than stimulates demand.

What is the answer? Is it not that the vicious system we have got into is grinding us to tiny pieces? It is no good to say that the shipper cares nothing so long as he gets his packing and shipping charges. The shipper does care. The more fruit we grow, the keener the demand on the market, the more he can pack and sell. Why then does he call for picking when fruits are unripe, before they are at their best? So there may be less congestion in the packing house. Because there is less complaint on condition from the handlers, consequently fewer claims for rebates. And because he fears that some one else may fill the order and he will lose his connection and customer.

What is this cycle of fear doing to us? For instance, peaches are being picked green because the packing house is calling for them. There is a surfeit of number-tuos. Picked-and-sent-to-the-packing-house-the-fresh-fruit-market-is-supplied-and-then-what? They are offered to the cannery. But the cannery cannot use them. They are not mature, not tree ripened like he wants them. The cannery becomes dissatisfied and refuses the offerings and in the meantime who can blame him if he makes such representations to Ottawa that the duty which stops the flow of peaches from the United States is lifted?

Everybody loses through the present system, most of all the growers. The sooner they see that the remedy lies in their own hands and begin rigidly to apply it, the better even for the people in the cities.

PROVINCIAL EXHIBITION WAS TREMENDOUS SUCCESS

A MAGNIFICENT measure of success attended the Interior Provincial Exhibition Association fair at Armstrong, last week. The show was a tribute to the work of the management and the excellent committees. The attendance was beyond almost what it could be said the directors looked for. The fact that Sir Edward Beatty was in Vernon for a noonday speaking engagement did not appear to have militated against the success of the fair in any aspect.

So popular was the program of attractions that Mat. Hassen, and his merry men, lined up, that they seemed to draw as never before. Indeed so great a hold did they appear to have on the tremendous crowd that if anything was in any way neglected, it was the wonderful exhibits of livestock. Possibly it was due to the fact that there was so great a press about the track that there did not appear to be the usual attendance on the pure-breeds as they strutted their stuff.

NEWSPAPERMEN, LIKE OTHERS, TRY TO DO THEIR DUTY

EVERY person and every organization has a major purpose. Generally this is good. Sometimes it is bad. This is as true of newspapers as of other community enterprises. In this connection the Okanagan Valley is well served. All of the newspapers print what the men who assemble it regard as news. Despite years of training they may over-emphasize this or that. They may miss entirely an activity worthy of recording. In other words, newspapers, conducted by human beings, make mistakes. But it will be agreed to, that in the main, the several districts are ably served and that there is honest intent to present accurately every worth while activity.

No more concrete evidence of this can be found than in one of the activities in which the senior Valley newspapers played an important part, last week.

The Tree Fruit Board decided there is to be an advertising campaign in Manitoba for the sale of British Columbia apples.

Reasons for the campaign are obvious. More apples are on the trees than the available markets have ever consumed. To avoid surpluses and red ink, sales must be stimulated. Apple growers in Washington and citrus fruit growers in California have found out by experience that intelligent, well conceived, properly conducted and timely advertising campaigns, pay huge dividends. This influenced the Tree Fruit Board to institute one.

Advertising is a highly specialized business. It has reached the status of a profession though not hedged about by the legislation and restrictions with which others are surrounded. Trial and error has resulted in the emergence of certain individuals and firms as specialists in planning and conducting campaigns. An intelligent, experienced fruit grower knows the varieties of fruits his lands and climatic conditions will grow and the people are demanding. Advertising agencies study market trends and the media to be used most ef-

September

(In the Okanagan Valley)

On hill and dale September's glory fades.
The harvest moon with ambient light soft broods
O'er yellowing corn in mellow autumn vales.
The wild fowl joyous feeds at rosy dawn,
And preens his gleaming coat at set of sun.
Too soon alas to mount on vagrant wing,
And cleave the keen and wakeless air to realms
Where bloom the fadeless flowers in velvet fields.
Oh, tryst of summer smiles and autumn cares!
September! symbol of the fruitful year,
Of peace and plenty, mead of honest toil,
Omen of fleeting hours and swift decay!
Thou bird of passage, herald of storm and night,
Oh, stay thy swift, thy golden-tinted flight,
Ere home we take us on our pilgrim way,
At break of day when shadows flee away.

Kamloops, B.C.

J. D. SWANSON.

fectively to move their clients products into the hands of consumers.

Faced with the necessity for the selection of an agency among so many that are highly skilled and successful, the Tree Fruit Board requested the editors of the three senior weekly publications to assist. The newspapermen consented and gave two days to listening to presentations of plans and ideas for sales campaigns, and with the members of the Tree Fruit Board in reaching a decision. Seven good friends of the newspapers, men, who have placed thousands of dollars with them, were necessarily disappointed.

An able representative of one of the agencies thus summarized it: "I don't know any other three editors in Canada who could place their heads on the block and the axe not fall." Other agency men assented. The inference is, that the editors had voluntarily made themselves vulnerable and that seven agencies might penalize them. It is the tribute of a man to men who do not shirk their duty. More than that even, it is a pledge.

The answer to the question in nearly everybody's mouth, is, why should the newspapers voluntarily risk incurring the displeasure which naturally follows the disappointment of seven organizations and the satisfying of one?

The answer is a simple one. It is that the newspapers are only doing their duty when placing at the service of the fruit growers and their other constituents, knowledge and experience gained through the years. As members of a committee they have done this. They have been doing it for years in less hazardous and spectacular fashion and there is public confidence in their continuance. It is part of the job which a good newspaper does day and night for its community.

It is the sincere belief that in this particular case the agency best qualified to advise was selected. The difficult part of the task, however, is that each and all of the eight would do a good job because the eight have won to the fore among the hundreds that originally aspired.

OKANAGAN EXTENDS A HEARTY WELCOME TO BEATTY

HUNDREDS of Okanagan Valley people today have a different idea about Sir Edward Beatty from what they had before they heard him speak in Vernon on Thursday.

Reading of speeches, or listening to a man speak over the radio, will never convey as true an impression of his personality, sincerity, or purposes, as will the opportunity to watch him in action and to hear the words as they fall from his lips.

The President of the Canadian Pacific Railway Company, impresses by his earnestness of purpose, choice of words, his ideas and the relation of all of them, sometimes described as personality. Close up, he is likeable and companionable and it will always be difficult for those who have the privilege of speech with him to obtain or retain an impression of him as a servant of what is so often called the predatory money interests.

So experienced and accomplished a speaker can coin a neat phrase and turn aside a shaft so that it sinks into the vitals of the one who launches it. He paid his audience the compliment of speaking seriously on an important subject.

The Okanagan Valley, climatically and geographically presented its best for the cursory glance of a practical and accomplished observer.

We were all in our best bib and tucker. We liked and admired our distinguished guest and we believe he shrewdly valued us. He will be welcome whenever the duties of high office and his own inclination brings him this way again.

CELLOPHANE COATS FOR OUR CHERRY TREES

CELLOPHANE coats for cherry trees. It is said that an enterprising manufacturer is making them. The advantage they are said to possess is that they will keep rain off the cherries and prevent them from splitting.

If they will do what is claimed for them and if the cost is not too great, the cellophane overcoats may become a reality. This is, if the overcoats themselves do not cause some unfavorable action in the ripening of the cherries.

Growers know that increase in production costs are mounting all the time. They appear never to get less. It would be a matter of nice calculation to ascertain, over a ten-year period, if a grower putting these overcoats on his cherry trees or one taking the chance of rain splitting them, comes out ahead financially. The idea is not more preposterous than the now much used hot-cap was at one time.

TRUE SOUTHERN POLITENESS

Lenience to First Offenders—And a Gesture of Goodwill Courtesy cards, instead of tickets calling for appearance in police court, is what out-of-town motorists get in a Louisiana city, according to a news item in the Christian Science Monitor.

"Do not worry about it this time," the card says, following the check mark showing the rule violated. On the back of the card appears a list of outstanding points of interest, in or near the city.

IT IS MORE DIFFICULT TO RESTORE HARMONY THAN TO DESTROY IT.—LATIN PROVERB.

Wild Life In The Interior British Columbia

As the first snow appears on the hill tops, central British Columbia attracts the big game hunters. From afar come men armed with gun or camera and nowhere in the world is there finer sport. Here are pictured three of B.C.'s best known species. A mother Bear and Cub, the big Bull Moose and a Rocky Mountain Goat.

From The Vernon News Files

Development work on the hydro-electric power project at Shuswap Falls will be undertaken this fall. The name of the company to superintend operations is the West Canadian Hydro Electric Corporation. So, the organization of the company and as soon as negotiations are concluded with the C.N.R. for the property at the falls, work will commence. Owing to the sad death of Jack Routh from infantile paralysis, the ban on public gatherings in the city is being continued. High School pupils are being sent correspondence courses so that the work may be proceeded with in some measure. Movement of Macs from the valley is in full swing. Hundreds of cars have rolled. Bulman dehydrator plant is busily engaged. Apples are pouring in and the plant is working to capacity. Estimates of the Wealthy apple crop vary from 200,000 boxes to 276,000 and considerable confusion is reported in marketing.

Last Saturday it became known that Major G. O. Falls, the chaplain for the Okanagan regiment for the first two years of the war, was anxious to

TEN YEARS AGO—Owing to the sad death of Jack Routh from infantile paralysis, the ban on public gatherings in the city is being continued. High School pupils are being sent correspondence courses so that the work may be proceeded with in some measure. Movement of Macs from the valley is in full swing. Hundreds of cars have rolled. Bulman dehydrator plant is busily engaged. Apples are pouring in and the plant is working to capacity. Estimates of the Wealthy apple crop vary from 200,000 boxes to 276,000 and considerable confusion is reported in marketing.

Canada's Forest Fire Losses

Last year more than 3,000,000 acres of Canada's forests were destroyed by fire. The direct cash loss was something like \$6,000,000 in timber and property. In addition, \$1,200,000 was spent in fighting these fires. And this more than \$7,000,000 bill does not include loss in soil fertility, in scenic value; it does not include resultant flood damage due to more rapid spring run-offs; it does not include game loss from the lowering of water levels.

This tremendous damage is an annual affair, and if it were continued long enough would end in the ultimate denudation of Canada's forest areas. For some time, now, experts have been engaged in searching for better preventative measures. It is expected that the new Wright system, at present being successfully tried out in Quebec and New Brunswick, will be effective over the entire Dominion.

The Wright system is an index of fire hazard from daily records of rainfall, evaporation, wind, and relative humidity. It is computed from tables which must be prepared for each forest type and climatic area. In operation, it forecasts the fire hazard for the next day, and is applied in the following manner: In detailing work of foresters so the maximum number will be available when fire hazard is high; in determining the number of men to send to a fire; in regulating the issuance of settlers' burning permits; in controlling public use of forests; in deciding necessary frequency of fire patrols.

In the past, important decisions on these points depended upon individual judgment, error in which proved expensive if not disastrous. The Wright system brings science into the scene, reduces guess-work, and increases forest conservation efficiency. The success of the system in the East means that it will become widespread just as soon as the proper indexes can be compiled for other areas.

H. G. Muller has applied to the City Council for free water and light for five years, for a building which he proposes to erect in the city. The structure, to cost \$5,000, will be used as a theatre, and should prove an asset to the city. George Gartrell, of Summerland, returned this week from the Revelstoke district, where, accompanied by Allan Brooks, of Okanagan Landing, he has been doing some big game shooting. They obtained some fine caribou and goat. He hopes to have 20,000 pounds. The annual meeting of the district Liberal Association elected James Ritchie, of Summerland, president. Joe Harwood, of this city, is vice-president and R. J. Muttie, secretary. Ratepayers of the Coldstream municipality have petitioned for abolition of the ward system. A. B. Knox, of Kelowna, has invested heavily in real estate in the city. Charles Simms, manager of the local branch of the Hudson's Bay Co., has returned from the coast.

As the city has not been able to dispose of its debentures satisfactorily, the Council has decided to stop work on the city hall and not to

commence any of the other projects immediately. The largest crop of oats ever threshed in this district—or, it is believed, in any other district—has been harvested on the property of John Phillips, White Valley. From nine and a half acres the returns were 20 tons, 800 pounds, a yield of over 126 bushels an acre. A prettier little town can hardly be found within the limits of British Columbia than Kelowna, which last week held the annual Mission Valley fall fair. Exhibits in some instances were not as numerous as they should have been, but the town's hospitality more than made up for any lack of interest in the fair.

New Broadcasting Rules

A new set of regulations to govern broadcasting was issued this week by the Canadian Broadcasting Corporation. All such regulations are necessarily an interference with liberty and technically a kind of censorship. On principle censorship is bad, but it is a physical fact that unregulated radio broadcasting would be chaos and a public interest in the proper use of the air channels available to Canada was recognized when the CBC was set up. The rules it has just formulated seem based on common sense. They will not injure any legitimate interest, public or private. They will enhance the usefulness of radio, as purveyor of entertainment and medium of debate.

A general statement of CBC policy accompanies the regulations. "It is not the intention of the corporation," the statement says, "to restrict freedom of speech or the fair presentation of controversial material. On the contrary, the policy of the corporation is to encourage the fair presentation of controversial questions." This is in line with earlier intimations by L. V. Brockington, P.C., chairman of the CBC, and with the corporation's actual practice as observed by listeners recently. There has been a fair field for all opinions. In the broadcasts on "Our Heritage of Liberty," for instance, the public heard from a Socialist professor, a Liberal editor, a Conservative editor and Mr. Abernethy among others—a well mixed bag. Re-statement of the CBC's position on free speech, incidentally, may be accepted as a reply to demands that Mr. Abernethy be put off the air. The CBC, it may be presumed, has decided to let Mr. Abernethy alone. That is certainly the right decision. Whether Mr. Abernethy is making improper use of his Sunday time—buying it at a low rate for religious purposes and then using it for political purposes—is a question between Mr. Abernethy and the private stations he uses—Winnipeg Free Press.

The Family Goes To The Armstrong Fair

By Mrs Sidney Darvill, Oyama

"Mom, Mom, what about the Armstrong Fair?" "Can we go?" "Little Billy can walk now, I'll help look after him." "Will there be a ferris wheel, an' a fat lady, an' a thin man?" "An' will the Mounties ride?" "An' will there be hot dogs an' onions fryin'?" "An' all them little pigs?" "Mom, Mom, tell us we can go!"

And so the chorus swells, weeks before the great time dawns, and little Billy and Joe and sister Sue and Granddad and Aunt Maggie are all packed in Dad's old car, with the sandwichees and apples and cookies, and last of all, Mom, so flustered and bothered, but yet withal so loving and kind.

A great sigh of relief goes up as the Fair gates are safely entered, and the family spreads around the grounds. Granddad is soon exchanging experiences with old friends, as they prod the beans, and judge the teams; Aunt Maggie makes for the cakes and canned fruits, the wool matts, and the wonderful plant pots made with beans and pease and seeds of all sorts and sizes. "Would you believe it, an old

lady over 70 made them." Dad and sister Sue go around together putting a dime on this and that, drawn in to see the "bean" man and the "rubber lady," by a force that will not let them until their curiosity is satisfied.

"Clear the track!" "Clear the track!" "Hurry along please." And out come the "Lancers" waving their pennants, and the horses and great bulls, the cows with their calves. "There goes our Joe—atta boy—round the ring with a bull calf!" Mom, proud and worried by turns as Joe strives to keep his charge in line, though she strongly suspects much of the "actin' up" is for effect.

Now the sheep dogs—"My, ain't they wonderfully trained dogs"—and the musical ride; "Ah, here's the cow-boy! Gee, watch that ducky horse; and that black steer. Gosh, he's off—he's hurt; no he ain't, he's up again!"

And away they go, thundering down the field. Here comes the boys' band, with their sailor's clothes, and the Scotches in their plaids and sporrans, and a thousand other sights to see.

But little Billy is clinging to Dad's broad shoulder, and Granddad is patiently waiting in the car. "Is that a medal you've got, Granddad?" "Oh, this?" "No, that's me portrait, brooch and all complete for 20 cents." Dear old Granddad's grin of delight had been registered for all the world to see.

So reluctantly, the family pile in, and sleepily wave farewell to the "best ever" Armstrong Fair.

Wheat Values Surveyed

"Shelter Belt" Of Trees

Ontario To Vote Soon

Embargo On Munitions?

Infantile Paralysis

Value of the 1937 prairie wheat crop to farmers was estimated tentatively this week at \$171,232,000. Although the yield of 164,000,000 bushels is the lowest since 1914, the value is the highest since 1929 with the exception of the 212,000,000 bushel crop in 1936, when the value was estimated by the Dominion Bureau of Statistics at \$186,170,356. It is estimated that the 1937 Manitoba crop is \$52,139,000, compared with \$24,920,000 in 1936; 1937 Saskatchewan crop is \$38,030,000, compared with \$102,960,000 in 1936, and the 1937 Alberta crop is \$81,063,000, compared with \$58,290,000 in 1936. Wide divergence in values for subdivisions of the three provinces was noted in comparison with 1936. One crop district showed an increase of 400 percent in value, compared with the previous year, while another reported a crop worth only 7 percent of the previous year. Severity of drought conditions in Saskatchewan where the 1937 crop is estimated by the Dominion Bureau of statistics at 35,000,000 bushels compared with 117,000,000 bushels last year, was given as the reason for the big decline in Saskatchewan's wheat production value.

During the present year 2,000,000 trees will be planted in the three prairie provinces under the farm rehabilitation program. 4,000,000 trees will be distributed through the ordinary channels. This afforestation is part of the large, long-range plan for checking the ravages of soil drifting and helping to conserve moisture. For thirty-six years Western farmers have been aided by the Federal Government in establishing desirable shelter belts of trees and hedges, expert forestry advice, and supplies of tree seedlings. The program has been successful in providing free from the tree nursery stations in Saskatchewan. In that period over 145,000 three-year seedlings and cuttings have been distributed to 55,000 farmers, and under the rehabilitation program this service is being extended.

Co-operative Commonwealth Federation leaders predicted forty to forty-five party candidates would be entered in the October 6 Ontario elections before nomination day, September 29. Now thirty-four C.C.F. standard-bearers are in the lists. The total candidates of all parties, twelve-days-before-nomination day, stands at 220. Liberals and Conservatives have almost filled the lists; each major party have nearly eighty candidates. Beginning the total are the thirty-four C.C.F. candidates and twenty-two others of various persuasions, including five Independent-Liberals, two Independent-Conservatives, and two Communists. Organization of an Ontario Social Credit party is under way with the objective of nominating four candidates for the provincial general election.

The question of placing an embargo by order-in-council against shipments to Japan of Canadian raw materials "which may be used to manufacture arms and munitions" is being seriously considered by the Dominion Government. In highly-authoritative quarters it was stated the subject has been discussed at recent Cabinet meetings where the ministers had before them a memorandum specially prepared by the Department of National Revenue on instructions from Premier King on these aspects.

Dr. Gordon Jackson, Toronto medical officer of health, sees little hope of abatement of the infantile paralysis in Ontario's capital, focal point of the epidemic. Dr. Jackson displayed discouragement when he said last week that "this is another week just like last one." In reporting the week's list of new cases, the health officer said, "I am very disappointed." Toronto had 21 new cases up to last week end and one additional death. The new cases gave Toronto 551 since June 10. Another death in Hamilton brought the Ontario fatality list to 49, and the Dominion total to 71.

The Trades and Labor Congress of Canada at Ottawa unanimously re-elected P. M. "Paddy" Draper its president for the third successive term and heard him predict speedy settlement of difficulties between unions affiliated with the American Federation of Labor and the Committee for Industrial Organization. Earlier the congress voted to maintain the status quo in its relations with C.I.O. affiliates and offer its services as mediator in the dispute between the A.F. of L. and its parent body, and the C.I.O.

Canada is borrowing less and lending more. At the end of 1936, the Dominion Bureau of Statistics reported recently, British and foreign investments in Canada were reduced to \$6,537,700,000 from \$6,997,500,000 in 1935. As a corollary, Canadian investments abroad rose to \$1,656,500,000 from \$1,630,000,000. Most pronounced change was in United States investments in Canada, which were reduced from \$600,000,000 to \$4,044,000,000 to \$3,984,000,000.

Accepting an invitation of Premier T. D. Pattullo to visit British Columbia on his Western trip, President Franklin D. Roosevelt, of the U.S.A., will spend two and one-half hours in Victoria on October 1. It was announced, Mr. Roosevelt will be accompanied by a party of fifty.

A spectacular-appearing gold nugget, weighing 83 ounces, was left with the gold commissioner at Toloana Creek, B.C., this week by its finders, Mr. and Mrs. Vern Shen, to be sent to the Dominion Assay Office at Vancouver.

JUNIOR JUDGES CONGRATULATED AT EXHIBITION

DIVISION III—SWINE

Mrs. H. Swanwick; 2, Mrs. Flora Chapman; 4, Mrs. C. G. Rees; 5, C. H. Lane, Armstrong. Cockerel: T. A. Newman, Sorrento; 2, Mrs. H. Swanwick; 3, W. P. Nash; 4, Mrs. Flora Chapman. Pullet: 1 and 2, Mrs. H. Swanwick; 3, T. A. Newman; 4, Bruce Hunter, Armstrong. Pen: 1 and 2, Mrs. H. Swanwick; 3, Mrs. C. G. Rees.

Brown Leghorn, Single Comb—Cock: W. B. Hillard, Enderby. Hen: 1 and 2, W. B. Hillard. Cockerel: 1 and 2, W. B. Hillard. Pullet: 1 and 2, W. B. Hillard. Pen, old: W. B. Hillard. Pen, young: W. B. Hillard.

Black Minorca, Single Comb—Hen: 1 and 3, W. W. Patten; 2, Mrs. P. Bontos, Solsqua. Cockerel: Mrs. P. Bontos. Pullet: Mrs. P. Bontos.

F. B. Cossitt, president of the Exhibition Association, in a short speech, complimented the exhibitors present and he also congratulated the junior farmer teams for their success in the competition. I said that last year the exhibition had been very successful and it hoped this year would be equally so, but the manager working harmoniously with his various committees had done so and made the exhibition the best class B fair in western Canada. He said it was a complete triumph for his manager to be asked to run the Winter Fair at Vancouver. He thanked the Hon. C. MacDonald for all his assistance to the fair association.

Spurry, the fair's organizer, then turned to B. B. announced the results on the junior stock-judging competition:

Beef class: Kamloops North
R. Lawrence and W. Wilson, 520 points.

Dairy class: Chilliwack, B. Richardson and D. Richardson, 1011 points.

The highest individual scorer placing dairy cattle at Toronto, year, was called on, and gave short but very interesting talk on his experiences at the Toronto exhibition.

W. W. Durno and Bob Thomas, Calgary, Gordon Steward, Vancouver, E. A. Wells, Sardis, and W. V. McEwen, Kelowna, were called on for words in congratulation to the young judges and also complimented their management on the high position they had put the exhibition in.

Mr. K. K. Macdonald, Kelowna, gave very short speech expressing great pleasure it gave him to present. He said he was glad to have the judges confirm his opinion that it was the best show ever given in British Columbia. He congratulated the winners of the judging competitions and also the runners-up, and the fine spirit they had shown.

Emphasizing the splendid work done by the young judges' club, the minister pointed to the fact that it was the courtesy in training our future farmers.

PENTICTON MOVES TO AID DROUGHT AREA

PENTICTON, B. C., Sept. 1.—Eager to do its share in the provision of the needed tree fruit vegetables for destitute communities on the prairie, Pentiction is having difficulty in finding sufficient fruit for the number of needy people that are expected to double last year's total of 100. It is needed, it is stated. This situation was discussed at an organizational meeting held in R. P. Murray's office on Thursday night, with B.O.F.A. auspices.

It was pointed out that the cuts in the major portion of the local area are those desired by the processors of plants and therefore constitute another source of revenue for growers. However, it is probable that Pentiction will show up when the final analysis is made, as the loss of the committee's activities.

Last year Pentiction shipped seven cars to the destitute area. Culls are now called for by processors, which will hamper operation this coming winter.

However, it is being left in the hands of Rodrick McDonald, committee to work the pentiction, to a satisfactory solution. Mr. Donald was appointed at the time.

privilege to help in every way
sible in the fine work being
done by the Exhibition association.
He congratulated the directors
Mat Hassen, the manager, on
splendid work they had done.
A short time was spent in

WITH THREE PACKAGES
OF *Kellogg's* CORN FLAKES

at your grocer's

● Women have hurried to get this free offer since it was announced! Many are collecting sets of these lovely cereal bowls . . . they're going so fast that the supply will soon be exhausted.

Everybody loves Kellogg's. They have that matchless crispness and flavor that can't be duplicated in any other corn flakes. Crunchy and delicious in milk or cream.

Kellogg's Corn Flakes are made better. Packed better. Taste better. The patented Kellogg package with the *heat-sealed WAXTITE* inner wrapper keeps them oven-fresh. Kellogg's Corn Flakes are sold by all grocers. Made and guaranteed by Kellogg in London, Ontario.

At the meeting it was pointed out that the very people Penicton is aiding may be former, and perhaps future, customers. Mr. Donald said that he had been in letters of appreciation that communities Penicton had would always buy Penicton when conditions returned to normal.

One solution put forward was that groups of high-school boys might be organized to pick up the windfalls, etc., in the orchards which would be possible only after crop had been picked.

GRINDROD NEWS IT

GRINDROD, B.C., Sept. 20.

G. S. Hancock, of Vernon, visitor to Grindrod on Saturday.

Mr. and Mrs. D. Woods, who been visiting relatives here for the past week, returned to their home in Monroe, Oregon, on Friday.

Mrs. J. Lambert returned to her home in Sclamoon on Sunday, after spending the past week with relatives here.

Potatoes, late, white: 1, Geo. H. Karn; 2, Henry Johnson, Armstrong; 3, W. T. Hayhurst.

Pyramid, late variety Seed Potatoes: 1, G. F. Marshall; 2, Harry Reed; 3, Mrs. J. Phillips.

Pyramid, early & late marketable Potatoes: 1, D. Clemson; 2, G. F. Marshall; 3, Henry Johnson; 4, W. T. Hayhurst.

Citrus: 1, John Fowler, Armstrong; 2, W. T. Hayhurst; 3, J. O. Latrace, Armstrong.

Muskmelons: 1, George Fowler; 2, Geo. Rahn; 3, O. W. Burton, Armstrong.

Watermelons: 1, E. E. Dyson; 2, O. W. Burton; 3, Geo. H. Karn.

Cucumbers: 1, John Fowler; 2, R. Thomas; 3, Mrs. Alan Payerle, Armstrong.

Swede Turnips: 1, W. T. Hayhurst; 2, Geo. H. Fowler; 3, E. R. Rimeil, Armstrong.

Table Carrots, short red: 1, W. T. Hayhurst & Son; 2, T. A. Newman, Sorrento; 3, John Fowler.

Table Carrots, half long: 1, John Fowler; 2, Geo. Fowler; 3, W. T. Hayhurst & Son.

Tomatoes, ripe: 1, W. T. Hayhurst & Son; 2, E. E. Dyson; 3, Geo. H. Karn.

Summer Cabbage: 1, A. J. Fisher, Armstrong; 2, Noland Boss; 3, Harry Worth, Lumbly.

Cabbage, winter: 1, W. T. Hayhurst & Son; 2, Noland Boss; 3, John Fowler.

Cabbage, red: 1, H. Comber, Armstrong; 2, R. Thomas.

Crate Cabbage: 1, Noland Boss.

Cauliflower: 1, H. Comber; 2, W. T. Hayhurst & Son.

Paranilla: 1, G. F. Marshall; 2, W. T. Hayhurst & Son; 3, Harry Worth.

Table Beets, globe: 1, R. C. Thompson, Armstrong; 2, Geo. H. Karn; 3, John Fowler.

Onions, yellow: 1, Noland Boss; 2, H. Comber; 3, G. F. Marshall.

Onions, red: 1, Noland Boss; 2, E. Rimeil; 3, G. F. Marshall.

Onions, white: 1, Noland Boss; 2, W. T. Hayhurst & Son.

Pickling Onions: 1, J. O. Green, Aboloford; 2, W. T. Hayhurst & Son.

Garden Peas, shelled (dry): 1, W. T. Hayhurst & Son; 2, E. E. Dyson; 3, Geo. H. Karn.

White Beans (dry): 1, J. O. Latrace; 2, B. G. Griffith, Oyma; 3, E. E. Dyson.

Beans, AOV dry: 1, A. J. Fisher; 2, G. F. Marshall; 3, Mrs. H. Swanwick, Salmon Arm.

Sweet Corn: 1, Geo. H. Karn; 2, W. T. Hayhurst & Son; 3, J. Franklin Norman, Armstrong.

Celery: 1, G. F. Marshall; 2, Noland Boss.

Box Celery: 1, G. F. Marshall; 2, Noland Boss.

Celery, California crate: 1, G. F. Marshall; 2, Noland Boss.

Head Lettuce: 1, Noland Boss.

Hubbard Squash: 1, Geo. H. Fowler; 2, Mrs. M. McDonald, Armstrong; 3, Noland Boss.

Table Squash: 1, W. T. Hayhurst & Son; 2, John Fowler; 3, Geo. H. Karn.

Vegetable Marrows: 1, Geo. H. Karn;

3, John Fowler.

Table Pumpkins: 1, A. J. Fisher; 2, W. T. Hayhurst & Son; 3, J. Franklin Norman.

Peppers: 1, E. E. Dyson; 2, Geo. H. Karn; 3, Mrs. Alan Payerle.

Herbs: 1, R. Thomas; 2, W. T. Hayhurst & Son.

Collection Commercial Vegetables: 1, E. E. Dyson; 2, Geo. H. Karn; 3, Noland Boss; 4, G. F. Marshall.

Collection non-irrigated Potatoes: 1, W. T. Hayhurst & Son; 2, G. F. Marshall.

Collection Vegetables, grown householder in Armstrong: 1, C. F. Lane; 2, R. Thomas.

Celery Display: 1, G. F. Marshall; 2, Noland Boss; 3, Donald Comber.

Head Lettuce, packed for market: 1, Noland Boss.

SEED-DIVISION VIII

Spring Wheat, hard red: 1, G. K. Landon, Armstrong; 2, W. T. Hayhurst & Son; 3, L. & A. Ranch.

Barley, 6-rowed: 1, Fintan Dunne; 2, W. P. Nash, Armstrong; 3, H. C. S. Collett, Kelowna; 4, L. & A. Ranch; 5, Fintan Dunne.

Barley, 2-rowed: 1, L. & A. Ranch.

Oats: 1, W. T. Hayhurst & Son; 2, Wm. Rogers; 3, Fintan Dunne; 4, S. Pelly; 5, L. & A. Ranch.

Dent Corn, ripe: 1, John Fowler; 2, J. O. Latrace.

Flint Corn, ripe: 1, J. O. Latrace; 2, A. W. Hunter.

Alfalfa Seed: 1, Fintan Dunne; 2, Mike Luniv; 3, Margaret Nordstrom, Armstrong; 4, G. H. Hawthorne, Armstrong; 5, G. K. Landon.

Peas, wrinkled: 1, Margaret Nordstrom; 2, C. W. Burton; 3, J. O. Latrace; 4, W. T. Hayhurst & Son; 5, Murray & Parker, Armstrong.

Garden Peas: 1, J. O. Latrace; 2, L. & A. Ranch.

Carrots: 1, R. G. Thomson; 2, W. T. Hayhurst & Son; 3, J. O. Latrace.

Onion Seed, 6 bulbs: 1, R. G. Thomson; 2, J. O. Latrace.

Mangel Seed: 1, J. O. Latrace; 2, W. T. Hayhurst & Son.

Table Beet Seed: 1, J. O. Latrace; 2, R. G. Thomson; 3, W. T. Hayhurst & Son.

Sweet Corn, 6 ears: 1, W. T. Hayhurst & Son; 2, L. & A. Ranch.

Oats, late (Reg. or Cer.): 1, Thos. Phillips; 2, L. & A. Ranch.

GREATNESS PROVEN BY SERVICE SHOULD BE BRITISH OBJECT

—Watson Thomson

Speaker Before Women's
Canadian Club Appeals
For New Attitude

An appeal for a new, vitally different interpretation of the British Empire's "greatness" was launched by Watson Thomson, of London, England, in addressing the Women's Canadian Club on Tuesday afternoon last in the Burns' Hall.

Mr. Thomson, at present engaged on a lengthy tour of the Dominion under auspices of the Canadian Club, is a graduate of Glasgow University, having taken his Master's degree from that institution.

He has been identified for some years with the "New Britain Movement," an organization designed, among its other aims, to promote better understanding among the world's peoples.

This movement, originating shortly after the great war, is comprised, the speaker said, of "more or less ordinary people like myself, not of people of renown or in the public eye."

In Europe today, he declared in opening remarks, nations feel isolated, there is a certain restlessness and suspicion. "I am sure there is less of this feeling in North America than in Europe," he added.

"The tide, though, is set in the direction of that re-unification, that coming out of ourselves which is the path to world unity."

Until comparatively recent years, each country, from ages past, has lived to itself, each striving to foster its own particular aims and desires.

Now, however, all this is changed radically. "We, the Anglo-Saxons, are rubbing shoulder to shoulder with every other race in the world," Mr. Thomson said. "It's up to us. We've got to do something about it, got to wake-up."

The British Empire must give leadership to the rest of the nations, or civilization will surely decline.

There are certain characteristics of the British race that are admired, among them their refusal to become too excited, their adherence to tried methods instead of to theories.

Anglo-Saxons have looked with a certain amused tolerance at other peoples, Mr. Thomson said. Pleading for a radical change in this view, he asked that everyone regard his neighbor, whether he be German, Italian, Japanese, or Ukrainian, with a feeling of kinship, in order that the world may progress along paths that mean unity.

Nations today are vainly endeavoring to increase their prestige. "When this condition arises so acutely, we've got to be more than ever sure, above all, of the correctness of our approach. We must meet the situation—with greatness, the maximum greatness that is in us," Mr. Thomson stated.

"You must realize that I interpret 'greatness' in a different way. I mean by greatness, simply service," he explained.

Funeral services for Mrs. Mary Alice Cox, who died in Victoria on Wednesday, September 15, were held from Campbell Bros. Ltd., funeral parlors on Monday.

The Rev. Dr. J. H. Davies officiated and interment was in the family plot at the Vernon cemetery.

Mrs. Cox had been a resident of this city for 32 years, and had left for Victoria to reside less than a month before her death. She was aged 62.

Born in Montana, she was married in the United States to D. H. Cox, who survives. Forty-six years ago, Mr. and Mrs. Cox came to Alberta, moving later to this district.

Mr. Cox was for a period of some 15 years proprietor of the Vernon Hotel.

Surviving are her husband, four daughters, Mrs. R. Gray, of Victoria; Mrs. George Anderson, of Swan Lake; Mrs. F. Ferguson, of Milner, B.C.; Mrs. T. Saunders, of Oakland, Cal.; three sons, Tom and Hugh Cox, of this district; and Dave Cox, of Oakland, Cal.

CRICKET BANQUET IS PLANNED FOR TONIGHT

The present week will see the wind-up of a highly successful cricket season in Vernon.

Tonight, Thursday, at the Tourist Hotel, Okanagan Landing, the Vernon Farmers, winners of the Spencer Cup, will stage a banquet and smoker to which cricketers and all sportsmen are cordially invited.

An excellent program has been arranged, and tickets can be obtained from Tom Davidson, Jimmy Carpenter, or Johnny Bryce.

The final game of the season will take place on the Lakovlev grounds next Sunday, when the Farmers will oppose the combined eleven, picked from the City and the Legion.

"SUFFERED SIX YEARS WITH CONSTIPATION"

"For six years I suffered with constipation, and I decided to try ALI-BRAN. I have been eating it once a day for about four years, and it has certainly done the work."

Tests prove that Kellogg's ALI-BRAN is safe and effective for correcting common constipation.

KELOWNA ENROLMENT AT SCHOOLS IS 1,200

KELOWNA, B.C., Sept. 22.—Owing to the congestion of rooms in the Elementary School, Miss Ivy Laws, of Kelowna, has been appointed to the staff of that school, and will teach a Grade 4 class.

Pupils are drifting in from the prairies, states Mr. Chapman, and already the enrolment is about 1,200, a new high by more than fifty students. Generally, the peak enrolment does not come until November.

In order to safeguard the pupils in Kelowna Schools, the Trustees have refused to allow the new children from the prairies to enter school for one month after registration, so that all fear of infantile paralysis will have been dissipated.

It would appear that there is every likelihood that the peak enrolment this year will touch the 1,250 mark, which would be about one hundred pupils more than last year.

Sir Edward Beatty

(Continued from Page 1)

Is that not to be expected? For those who enter public life, it is always so that the strong reaction of those who have confidence in them, who have seen their work in private capacity, and who have been very well satisfied. They have not sought office, but been pressed into service.

And yet, Sir Edward continued, there is an element of leadership that is lacking, and an element that is very badly needed.

"If leadership has been lacking in this country, it is another sort of leadership. It is the leadership, indeed, which we all can give as business men, professional workers, educationalists, and ordinary solid citizens. By our interest in public questions, our concern for sane progressive measures, our level-headedness, our courage and our common sense and our optimism, we can do much."

He said in fact do everything needed in this country. For none of our problems are incapable of being solved.

Above all, the speaker emphasized, there should be zeal for service to Canada.

Unfortunately, there does not always appear to be this zeal. Here Sir Edward departed from his main theme to reflect upon some of his experiences as chancellor of McGill University, and as a member of the advisory committee for the province of Quebec which chooses Rhodes Scholars.

Almost invariably, he said, French-Canadian applicants for the scholarship explain that they wish to train themselves to enter public life. Presumably, they wish to be of service to the country. Jews state that they are anxious to help their own race, in any way they can. But the English-speaking applicants almost always reply to questions as to their future by saying they mean to enter one of the professions, or some other form of life-work. Their rest is in themselves and their own individual futures.

This is a situation, Sir Edward submitted, that should arouse our concern. "We must," he said, "revise our attitudes."

His implication was that if the public is dissatisfied with the way its affairs are handled, it is the public's own fault. The public, made up of us all as individuals, can adopt a careless, self-centred attitude, or, on the other hand, it can "get down to business."

There are problems that loom large, the speaker admitted. He hinted that he, as the head of a great transportation system, is certainly not unaware of national difficulties.

"But I am an optimist about Canada," he announced. "I am an optimist because I know that we are surrounded by a multitude of resources and advantages. And if we can but apply ourselves, and each and every one of us realize our responsibilities as groups and individuals, the future before us is encouraging."

Of the present, Sir Edward spoke briefly but with equal assurance. From east to west, he pointed out, there is a rising tide of confidence. A great measure of prosperity is being enjoyed throughout the length and breadth of the Dominion, from the Maritimes to British Columbia.

In Saskatchewan, he acknowledged, the current situation is indeed adverse, but he said that even there, in spite of many reverses, a great farming population has not yielded to despair or to discouragement.

The purpose of this trip, Sir Edward explained, was to secure information to familiarize himself with conditions across the country.

"And what I have noted on the present tour," he declared, "has been, on the whole, most encouraging."

He had come to the Okanagan after having attended the annual convention of the Canadian Chamber of Commerce, where he had been a guest speaker, and there too he had from the business leaders of the country learned of developments that warranted an optimistic outlook.

The only cloud on the horizon, troubling business in certain respects, is the blizzard that Sir Edward admitted this, but pointed out that the close alliance between Great Britain and the United States offers a substantial bulwark against disaster. The excellent understanding now existing between the two great powers tends to thwart any war-mongering among the other nations.

Recently, while in Washington, Sir Edward said that he had called upon Cordell Hull, secretary of state in the Roosevelt administration. In the course of this conference he had asked Mr. Hull several telling questions, and the answers had been to the effect that the United States is closer to Great Britain, and to Canada, along the lines of international policy, than in many years.

"Canada must follow Great Britain in any steps she may take to ensure the peace of the world," Sir Edward continued, and applause

Hotel Case

(Continued from Page 1)

produced statements from the Royal Anne Hotel, Kelowna, showing that lower rates were charged there. It is unfair, he argued, that "a \$1 a day house" should be made to pay as much or more than is charged a first class hotel.

The Council listened to Mr. Galbraith's presentation in silence. Alderman C. J. Hurt declared that it costs as much to bring water to the Coldstream Hotel as it does to any other premises, regardless of rates charged guests.

After asking for consideration for their case, Mr. Galbraith and Mrs. Wintermute left the chamber.

It seemed to be the Council's decided view that no negotiations would be made for reduced rates until the Local Board of Health's prosecution in police court against Mrs. Wintermute is concluded.

The Board of Health has charged Mrs. Wintermute with failing to comply with an order dated August 10, requiring her to abandon the use of a well under her premises and to connect with the city's water supply.

After various delays, the case was opened before the Magistrate William Morley in police court on Friday of last week. An adjournment was granted until Monday, and on that date a further postponement was made until Tuesday, September 28.

Mr. Galbraith asked for the adjournment until Tuesday of next week in order that he and Mrs. Wintermute might appear before the City Council that evening to present their case for reduction in rates should the Coldstream Hotel again connect with the civic system.

The postponement was vigorously objected to by the city solicitor, C. W. Morrow, but he was overruled by the Magistrate.

Earlier, Mr. Morrow, after the city's side had been presented, suggested that the Magistrate give his decision in the case, that the hotel be connected, and that Mrs. Wintermute appear before the Council to ask for a reduction in rates.

Mr. Galbraith refused to entertain the suggestion that the case be concluded. He asked that an adjournment be granted, but Mr. Morrow, in turn, refused his permission. Later, Mr. Galbraith's course was adopted, despite objections by the city solicitor.

Mr. Galbraith, through Magistrate Morley's jurisdiction to try the action. He submitted a list of ten points on Monday morning, which he declared should nullify the case. The objections were overruled by the Magistrate.

Since Mrs. Wintermute first installed the well and pump under her premises nearly a year ago, the City Council, acting as the Local Board of Health, has made repeated attempts to have the civic water connected again.

Next Tuesday may, however, see the end of "the Wintermute case," one of the longest drawn out in which the city has ever been engaged.

From the audience greeted this comment.

The speaker pointed out that Britain had honestly sought to disarm, in the interests of peace. Now, in the same interests, she is arming, and her plans are such that even now she is again respected, and her will for peace given attention to.

In concluding Sir Edward voiced his thanks for the cordial reception that had been tendered him on his visit to Kelowna, where he laughingly promised that "if you will have me, I shall now promise to come back again."

R. R. Earle, K.C., President of the Canadian Club of this city, acted as the chairman of the banquet, with Mr. Geoffrey Whitehead, President of the Women's Canadian Club, also being seated at the head table. Others in places of honor, in addition of course to Sir Edward himself were W. M. Neal, Vice-President in charge of Western Lines; C. A. Cotterell, Assistant General Manager for Western Lines; the Hon. K. C. MacDonald, Mayor E. W. Prowse, and R. Peters, President of the Vernon Board of Trade.

After the banquet, and a brief tour of inspection of the city, Sir Edward and his party returned south to Kelowna, where an informal reception was tendered him in the Royal Anne Hotel by the Board of Trade. From there his tour proceeded down to Penticton, and thence east.

Others in his party, in addition to those mentioned above, were Harry J. Smith, director of publicity, Montreal; and J. H. Campbell of the Winnipeg publicity bureau for the company.

ALL MAJOR CENTRES IN VALLEY TO HAVE RECREATION CLASSES

Classes in This City To Start In October--Great Interest Shown

Providing present plans mature, every major centre in the Okanagan Valley will have physical education classes this winter, states Jack Lynes, of Kelowna, district supervisor, who was in this city last week to confer with the provincial department of physical and recreational education, and last winter saw this activity blossom in the Okanagan, particularly in Kelowna and adjacent districts. The director is Ian Eisenhardt, who is expected to visit the valley at the end of this present month or early in October.

The Vernon centre, under the direction of William Ladner, whose appointment was announced last week, will commence its seasonal activities either on October 1 or 15, Mr. Lynes says. The actual date will depend on the numbers enrolled and the extent of employment in packing houses and elsewhere.

The Scout Hall will be used twice weekly, and classes are open to men and women over the ages of 16 years. Should the response be sufficient, a woman instructor may be employed for this city and Armstrong.

Penticton, Kelowna, and Rutland will enter on their second year under the provincial department's scheme, but other points in the valley, such as Vernon, will be operated for the first time this coming fall and winter.

West Summerland and Westbank are points in the southern sections of the valley that Mr. Lynes mentions as especially keen to have centres operating this year. A Princeton University graduate, King Guernsey, will probably be placed in charge at West Summerland. A meeting was held early this week to consider the scheme.

John Hassard has been named director of the work in Armstrong, which is expected to go ahead rapidly.

RUBINOFF PLAYS A \$100,000 VIOLIN IN HIS LATEST PICTURE

Rubinoff, radio's dynamic maestro, plays on one of the most precious instruments in the world, a Stradivarius violin 200 years old and valued at \$100,000. The maestro, and violin, are currently sharing billing in "You Can't Have Everything," Twentieth Century-Fox picture coming on Wednesday and Thursday, September 29 and 30, to the Empress Theatre, with Alice Faye, the Ritz Brothers, Don Ameche, Charles Winninger, and Louise Rainer.

Satisfying a life-long ambition, Rubinoff acquired the Strad not long ago after searching several years for an instrument that would satisfy his exact tonal requirements. He had tested many old and valuable violins placed at his disposal by music dealers, collectors, and even private individuals, but none was just right. The Rubinoff-Strad was just right. The violin is known, sent him into raptures.

WORTHLESS CHEQUES PASSED IN PENTICTON

PENTICTON, B.C., Sept. 21.—Penticton merchants who make a practice of cashing cheques tendered by persons unknown to them have again been victimized. Forged cheques to the amount of \$119 were passed recently.
